OUR INTEGRATED REPORT

STARLITE GLOBAL ENTERPRISES (INDIA) LIMITED Integrated Annual Report is prepared with the intention to provide a comprehensive overview of our financial and non-financial performances that has contributed to building both short and long-term value for our stakeholders.

Our strategic value drivers include six capitals - financial, natural, human, intellectual, manufactured, social, and relationship. As of this report, we will only be reporting on these six capitals in accordance with the framework.

With this integrated report, we further our commitment to purpose-driven sustainable business by addressing escalating environmental and social issues with the same urgency as our financial performance. We believe that this report provides insights on material issues, our operating environment, governance framework, approach to value creation, performance relative to key performance indicators, and connections between important issues, strategies, performance, value creation, financial, and statutory reports.

FORWARD-LOOKING STATEMENTS

This integrated report contains certain elements that are forward-looking statements. These can be distinguished by words like “believes,” “expects,” “may,” “will,” “could,” “should,” “intends,” “estimates,” “plans,” “assumes,” and “anticipates,” or negative variations. To make these claims, we must rely on assumptions. These presumptions, along with any related forward-looking statements, could end up being incorrect, and actual future events could diverge from what was predicted in the statements. We caution readers against relying too heavily on forward-looking statements. After the publication of this report, the Company disclaims any obligation to update these forward-looking statements to reflect events or circumstances.

Journey of Your Company

1955

A partnership firm M/s India Overseas Corporation was registered to begin exports of indigenously manufactured cotton yarns. This was the very early stage when yarn exports become economically viable for the importing countries rather than manufacturing themselves.

1963,
Commenced operation in Mumbai, India leading to burgeoning export market share.

1971

Entered the industry with acquisition of a 12,500 spindle spinning mill, Telangana Spinning & Weaving Mills Limited, in Hyderabad

1984

Establishment of a new cotton yarn spinning mill with open end technology. This was a very early initiative in open end spinning technology.

1999,

Establishment of Starlite Fashions Private Limited, Hyderabad, entered into retail textiles and property management.

2005,
Diversified into the real estate sector with the development of “**STARHOMES**”, an independent Villa & multi storied Apartments project in Balanagar, Hyderabad

2008,
Commenced plug and play workspaces at Banjara Hills, Hyderabad with world- class infrastructure, connectivity and security.

2010
Commenced operation in UAE i.e. Starlite Global Enterprises FZE

2012
Established Starlite Global Enterprises in Morocco and commenced operation in cotton trading.

2015
Set up a **3 Megawatt solar power plant** in Sadashivpet, Telangana State providing renewable energy to the state electricity grid.

2016,
Commenced operation in Tanger, Morocco. Your Company established the Texyarn Starlite, Tanger, Morocco for construction of an Industrial Building in Tanger free zone for yarn fabrication and process.

CORPORATE GOVERNANCE REPORT

“Corporate Governance is about promoting corporate fairness, transparency and accountability.”

Governance means administering the processes and systems placed for satisfying stakeholders' expectations while dealing with the Company. The root of the word Governance is from 'gubernate', which means to steer. Corporate Governance creates a need to embrace a corporate culture of transparency, accountability, ethical environment, legality, and proper disclosures. Your Company passionately believes in such corporate culture which also helps it to maximize stakeholders' value on a sustainable footing. It is also the professed belief of the Company that through good corporate governance it would be able to protect, augment and meet the trust and expectations of the shareholders, customers, employees, suppliers, government agencies and the society.

The phrase “corporate governance” describes “the framework of rules, relationships, systems and processes within and by which authority is exercised and controlled within corporations. It encompasses the mechanisms by which companies, and those in control, are held to account.”

Corporate governance is the broad term used to describe the processes, customs, policies, laws and institutions that direct the organizations and corporations in the way they act or administer and control their operations. It works to achieve the goal of the organization and manages the relationship among the stakeholders including the board of directors and the shareholders.

Corporate governance means to steer an organization in the desired direction by determining ways to take effective strategic decisions. It also deals with the accountability of the individuals through a mechanism which reduces the principal-agent problem in the organization.

Your Company has ensured that good corporate governance is followed in the organization which results in gain of investor confidence, which is crucial or important to the ability of entities to compete for capital. Good corporate governance is essential to develop added value to the stakeholders as it ensures transparency which ensures strong and balanced economic development. Your Directors have ensured that the interests of all shareholders (majority as well as minority shareholders) are safeguarded. They ensure that all shareholders fully exercise their rights, which is fully recognized and implemented.

Corporate Governance encompasses financial accountability, ethical corporate behavior and keeping in mind the interest of all stakeholders including employees, customers, vendors, investors, regulators and society at large. Additionally, it involves monitoring the Company's overall strategy.

Your Company believes good corporate governance is an essential part of a well-managed, successful business enterprise that delivers value to the shareholders. Our robust governance is based on the following principles:

- Fairness and equitable treatment towards stakeholders to encourage active co-operation between the Company and its stakeholders.
- Timely and accurate disclosure of all material matters relating to the Company, including the financial situation, performance, ownership, and governance of the Company is ensured.
- Different channels for disseminating information provide for equal, timely and cost-efficient access to relevant information by users.
- Board members act on a fully informed basis, in good faith, with due diligence and care, and in the best interest of the Company in addition to the shareholders coupled with the intention of ensuing appropriate composition and size of the Board.

The Company has adopted the Code of Conduct for its employees, including the Managing Director, which encompasses an appropriate mechanism to report any concern pertaining to non-adherence to the said Code. The Code of Conduct is also applicable to its other directors as also to Non-executive Directors as specified under Schedule IV of the Act and Regulation 26(3) of the SEBI Listing Regulations.

Your Company is in full compliance with the requirements of Corporate Governance under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations, 2015 ('SEBI Listing Regulations'). Risk management and the internal control process are focus areas that continue to meet the progressive governance standards. The Management on a quarterly basis presents before the Board of Directors a status report on regulatory compliances, as applicable to the Company.

Although corporate governance has been legally mandated in various aspects of operations, it is always the endeavour that the Company should go beyond adherence to the regulatory framework and adopt and observe the best and honest corporate practices.

Your Board of Directors wholeheartedly support and endorse Corporate Governance practices adopted by your Company in accordance with the relevant provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (in short "Listing Regulations") and beyond.

Business Ethics and Compliances

Your Company are committed to operating the business with the utmost integrity and in accordance with all the applicable laws, rules and regulation. To ensure that, we have instituted rigorous policies-

- ❖ Whistle blower policy

MANAGEMENT DISCUSSION AND ANALYSIS REPORT**INDUSTRY STRUCTURE, DEVELOPMENT AND OUTLOOK****Global Economy Outlook**

According to the World Economic Outlook (April 2023), the global economic growth slowed down to 3.4% in 2022, compared to 6.2% in 2021. The year saw geopolitical uncertainty with the prolonged Russia-Ukraine conflict and economic challenges leading to disruptions in the global market due to elevated inflation with increase in commodity and energy prices.

The global economy thus remained uncertain with continued disruption in the supply chain, and increased prices due to the above-mentioned geo-political uncertainties. Supply disruptions, commodity prices rise, and pent-up demand have led to a high inflationary environment forcing Central Banks across the globe to adopt aggressive monetary policy, resulting in steep rise in the interest rate.

The IMF expects global growth in 2023 to be 2.8% and the same is projected to rise to 3% in 2024. However, for advanced economies, the growth is projected to decline sharply from 2.7% in 2022 to 1.2% in 2023 amid financial sector turmoil, high inflation, ongoing effects of prolonged Russia – Ukraine conflict over and above three years of COVID. The growth in US also slowed down in the second half of the year to end at mere 0.9% in 2022 and is expected to remain at 1.0% in 2023. We have seen the fall of a few large banks in the US due to the Fed's policy of a steep rise in Interest rates. The growth in the Euro area is expected to bottom out at 0.7% in 2023 reflecting the effects of faster rate hikes by the European Central Bank. Thus, the global economic activity is expected to remain sluggish at least in the near future. While so, for emerging markets and developing economies, the growth is projected to rise modestly, from 3.9% in 2022 to 4.0% in 2023. In tune, India's economy is projected to slow down from 6.8% in 2022 to 5.9% in 2023. .

Indian Economy Outlook

The Indian economy continues to remain resilient in the last year despite the global headwinds. One has seen increased industrial activity due to Government's Make in India, Production linked incentives, Atma-nirbhar India and such other policies. Thus, India is expected to be one of the fastest growing economies in a challenging global environment.

In this context, the Reserve Bank of India (RBI) expects the Indian economy to be amongst the fastest growing economies in FY 2023-24 led by improving macroeconomic fundamentals and sustained momentum in domestic economy. RBI though is expected to continue its accommodative stance to growth as seen in its recent Monetary Policy Committee meeting where it decided to pause the rate hikes after a cumulative increase of 250 base points since May 2022. Consumer inflation is expected to moderate from 6.8% in FY23 to 5.2% in FY24. The union budget presented this year is very supportive of the long-term growth of the real estate sector in India through its focus on urban infrastructure and the digital economy. The government's sharply expanded capital expenditure target for the year is expected to create job opportunities and higher economic activity.

Industry Overview

The residential housing segment exhibited a strong performance and sustained momentum during the last fiscal despite several headwinds. The residential segment demonstrated record sales in the Calendar Year (CY) 2022 breaching the previous peak of 2014. As per the available Data, the Fiscal 2023 was a milestone year for the Indian Real estate sector with all-time high sales. Due to Covid pandemic, the work from home culture has taken its roots. The demand pick-up therefore, is expected to remain buoyant in fiscal 2023 and in fiscal 2024.

Housing for all –

The Government in this year's budget has allocated ₹79,000 Crore, 66% higher than last year's allocation, under the Pradhan Mantri Awas Yojna (PMAY) initiative which will be used for both urban and rural markets. The government plans to complete its target of over 4 Crore houses across both urban and rural markets, which will be allocated to persons eligible under the scheme.

Urban Development Plan: The Real estate sector is expected to benefit from emphasis laid on development particularly in Tier 2 and Tier 3 cities. The National Housing Bank (NHB) will oversee the proposed Urban Infrastructure Development Fund (UIDF). This will help public agencies develop infrastructure in Tier 2 and Tier 3 cities. A ₹10,000 crore budget has been proposed for this fund. Furthermore, five centers of excellence for urban planning have been proposed, which will provide the sector with a channel to hire trained professionals. A committee of urban planners, economists, and institutions will be formed to make recommendations on urban sector policies, capacity building, planning implementation and governance.

Solar Energy:

The Government of India has taken up aggressive policies to develop renewable energy from different sources including solar power. The state governments have announced solar power development projects and are offering several incentives. This sector is poised for immense growth more so in view of very favorable climatic conditions in India for solar power energy.

Your Company’s Business Overview:

The following chart presents an overview of your Company’s various business verticals for the last three (3) years and projection for ensuing 2 years i.e. fiscal 2024 and 2025:

(in lakhs)

Solar Power Project

Your Directors are glad to report that your Company has continued to maintain the annual export of solar power to the State Grid generating revenue of about ₹320 lakhs. . The plant was commissioned in July 2015 and the details of last 6(six) years operations are depicted in the chart below:

Five Years	2017 (Jan-Dec)	2018 (Jan-Dec)	2019 (Jan-Dec)	2020 (Jan-Dec)	2021 (Jan-Dec)	2022 (Jan-Dec)
Units Generated	53,85,844	51,82,882	51,66,810	50,11,747	49,27,220	49,35,835
Units Exported to the grid	53,86,110	51,79,660	51,48,820	49,92,776	49,40,860	49,16,170
Revenue (@6.45 per units) (in Rs. lakhs)	347.40	334.09	332.10	322.03	318.75	317.09

International Trade & investment:

M/s Starlite Global Enterprises FZE, Sharjah, UAE (wholly owned subsidiary of your Company incorporated in UAE) has been consistently generating surplus in hard currency. The subsidiary has recorded a turnover of AED 20.35 lakhs (₹ 438.27 lakhs) and profit of AED 2.16 Lakh (₹ 46.52 lakhs) in Fiscal 2023 as compared to turnover of AED 21.46 lakhs (₹ 435.58 lakhs) and profit of AED 0.97 lakhs (₹ 19.72 lakhs) in Fiscal 2022. The turnover of the Company reduced during the Fiscal 2023 due to a fall in demand from European markets more so in textile sector where this Company operates. Despite the low revenue, the Company made higher profit due to high margins and an increase in exchange price.

This subsidiary company has invested in a residential property in Dubai which was completed and handed over to the company during this Fiscal year. Your directors are glad to inform you that this residential property has been rented out yielding 5% annual return on the investment. Here-below is an overview of this property as under:

The FZE company through its wholly owned subsidiary has been constructing an Industrial Building in Tanger Free Trade Zone, Tanger, Morocco with an area of about 5,000 square meters and a projected investment of Moroccan Dirham 210 Lakhs (AED 82 Lakhs and ₹ 17.50 crore) at exchange rate as on March 31, 2023. An overview of this proposed industrial building is as under:

The building is expected to be completed in Fiscal 2024 and will add substantially to the revenue of the subsidiary company.

Residential Sector Activities:

Impact of Climate Change on Real Estate Sector

Buildings are the fourth highest emitters globally after power, transport and industry. Global emissions from buildings increased from 2.91 Gt CO₂ in 2019 to 2.97 Gt CO₂ in 2022. 11% of these GHG emissions result from manufacturing of raw materials of hard-to-abate industries such as steel and cement. The remaining are from the onsite emissions through electricity consumption, mainly for lighting and air conditioning. Enormous emissions reduction potential remains untapped due to the continued use of fossil fuel-based assets, lack of effective energy-efficiency policies and insufficient investment in sustainable buildings.

There has been a significant increase in investment at a global level towards reducing the energy intensity of buildings, over the past years. The real estate sector's commitment to reducing its impact on the climate is unquestionably a step in the right direction. Government, policymakers, investors, and the public are not only adopting new perspectives on climate change, but also taking ambitious steps to mitigate the same. With the development of tools to promote sustainable building practices and the adoption of green building certifications, more jurisdictions are aligning their building operations to comply with the Paris Agreement. The increase in investment is a welcome news, but it also emphasizes the need to collaborate with more external partners to effectively use technology to guarantee fluidity, auditability, and transparency.

Outlook and Strategy

The Company remains committed to continue towards its growth trajectory by bringing new products in a calibrated approach to leverage this upcycle. The rental business is exhibiting a steady recovery. The retail business continued to deliver healthy growth supported by healthy footfalls and increased consumption.

Outlook on Threat, Risks and Concerns

The Company is exposed to a number of risks such as economic, regulatory, taxation and environmental risks as well as sectoral investment outlook. Some risks that may arise in the normal course of business and could impact their ability to address future developments, comprise credit risk, liquidity risk, counterparty risk, regulatory risk, commodity inflation risk and market risk. The Company continues to implement robust risk management policies that set-out the tolerance for risk management and the requisite mitigation plans.

- A. Industry Cyclical:** The real estate market is inherently a cyclical market and is affected by macroeconomic conditions, changes in applicable governmental schemes, changes in supply and demand for projects, availability of consumer financing and illiquidity. Your Company has attempted to hedge against the inherent risks through a business model comprising owned projects, joint ventures, residential platforms, and development management through a pan-India presence. However, any future significant downturn in the industry and the overall investment climate may adversely impact business.
- B. Statutory Approvals** The real estate sector in India is heavily regulated by the central, state and local governments. Real estate developers are required to comply with a number of laws and regulations, including policies and procedures established and implemented by local authorities in relation to land acquisition, transfer of property, registration and use of land. These laws often vary from state to state. Several of your Company's projects are in preliminary stages of planning and any delay in obtaining approvals could warrant revised scheduling of project timelines.

Cautionary Statement

Statements in the Management Discussion and Analysis describing your Company's current financial status, objectives, projections, estimates, expectations may be "forward-looking statements". Actual results may differ materially from those expressed or implied. Important factors that could make difference to the Company's approach regarding operations include economic conditions in which the Company operates, change in government regulations, tax laws, statutes and other factors such as re-occurrence of Pandemic conditions etc.

INDEPENDENT AUDITOR'S REPORT

To the Members of Starlite Global Enterprises (India) Limited

Report on the Audit of Standalone Indian Accounting Standards (Ind-AS) Financial Statements**Opinion**

We have audited the accompanying Standalone Ind AS financial statements of Starlite Global Enterprises (India) Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the Standalone financial Statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the '*Auditor's Responsibilities for the Audit of the Standalone financial Statements*' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Key audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.NO	Key Audit Matter	How our audit addressed the key audit matter
-	Nil	Nil

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Managements and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF STARLITE GLOBAL ENTERPRISES (INDIA) LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")****Opinion**

We have audited the internal financial controls over financial reporting of Starlite Global Enterprises (India) Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. Corporate Information

Starlite Global Enterprises (India) Limited (referred to as "SGEIL" or "the Company" hereinafter) was incorporated in the year 1962, in the name of M/s Telangana Spinning & Weaving Mills Limited which has been changed to M/s Starlite Global Enterprises (India) Limited on May 17, 2010. The Company has its registered office situated at 603, Shangrila Plaza, Plot No .14, Road no: 2, Banjara Hills, Hyderabad -500034. The Company is engaged in diversified business activities namely, Real Estate activities of development, lease/rent and sale of land and commercial property, generation and supply of solar power & Management and Maintenance of properties owned by the Company and those under Joint venture Agreements. The Company is also trading in shares, securities and derivatives and mutual fund investments as a supplement to its main activities and for parking of surplus funds. Further the Company is also engaged in International and Retail trade through its subsidiaries.

2. BASIS OF PREPARATION & SIGNIFICANT ACCOUNTING POLICIES

I. BASIS OF PREPARATION

i. Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

ii. Basis of Measurement

The Financial Statements have been prepared on a historical cost basis, except for certain financial assets and Liabilities (including derivative instruments) which are measured at fair value/ amortised cost;

iii. Functional and presentation currency

These Ind AS Financial Statements are prepared in Indian Rupee which is the Company's functional currency. All Financial information are presented in lakhs and rounded off to the nearest lakhs.

iv. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

v. Significant accounting judgement, estimates and assumptions:

The preparation of Company's financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgments, estimates and assumptions that affect the reported balances of revenue, expenses, assets and liabilities, accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The following are the critical judgements, apart from those involving estimations that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

➤ Taxes

Deferred tax assets are recognised for unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer note 19 – Recognition of deferred tax assets, availability of future taxable profit against which tax losses carried forward can be used.

➤ **Impairment of non-financial assets**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted cash flow model ("DCF model"). The cash flows are derived from the budget for the next five years and do not include restructuring activities that the

Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash- inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill with indefinite useful lives recognised by the Company.

II. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Current And Non-Current Classification:

The Company presents assets and liabilities in the balance sheet based on current / noncurrent classification.

- An Asset is classified as current when it satisfies any of the following criteria:
 - (b) It is expected to be realised in, or is intended for sale or consumption, in the Company's normal operating cycle. It is held primarily for the purpose of being traded.
 - (c) It is expected to be realised within 12 months after reporting date; or
 - (d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.
- A liability is classified as current when it satisfies any of the following criteria:
 - (a) It is expected to be settled in the Company's normal operating cycle.
 - (b) It is held primarily for the purpose of being traded.
 - (c) It is due to be settled within 12 months after the reporting date; or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of Equity instrument do not affect its classification.
- All other liabilities are classified as non-current.
- Deferred tax assets and liabilities are classified as non-current only.

Operating cycle

Based on the nature of services of the company the normal time between commencement of services and their realisation in cash and cash equivalents, the Company has identified twelve months as its operating cycle for the purpose of classification of its Assets and Liabilities as current and non-current.

(B) Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, Goods and Service Tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue. The specific recognition criteria described below must also be met before revenue is recognised.

(a) Rental Income from tenants under Operating leases:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of Ownership to the lessee. All other leases are classified as operating leases.

As a lessor:

Leases in which the Company does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

- Lease payments under an operating lease shall be recognised as an income on a straight-line basis over the lease term unless
 - (i) Another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis;
 - (ii) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

Hence the Company has recognised the lease income on the basis of payments to the lessor that are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight-line basis is avoided.

(b) Sale of Solar Power:

Revenue from sale of solar energy is recognised in accordance with the provisions of the power purchase agreement entered into with TSSPDCL (The Southern Power Distribution Company of Telangana). Such revenue is recognised on the basis of actual units generated and transmitted, at the tariff rate agreed between the parties.

(c) Sale of Land held as stock in trade:

Sale of land and plots (including development rights) held as stock in trade is recognized in the financial year in which the agreement to sell/application forms (containing salient terms of agreement to sell) is executed and there exists no uncertainty in the ultimate collection of consideration from buyers. There is no sale of land during the current year.

(C) Taxes:**Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Income Taxes:

Deferred income taxes are recognised using the Balance Sheet Approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred Income Tax Liabilities are recognised for all taxable temporary differences, except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred Income Tax Assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- (a) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- (b) In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority. Deferred tax assets include Unused Tax Credit in the form of Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(D) Property Plant & Equipment& Investment Property:

(i) Property Plant & Equipment:

PPE is measured on initial recognition at cost net of taxes/ duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Machinery spares that meet the definition of PPE are capitalised and depreciated over the useful life of the principal item of asset.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) Capital Work in Progress:

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment or investment property. Costs associated with the commissioning of an asset are capitalised when the asset is available for use but incapable of operating at normal levels until the period of commissioning has been completed. Revenue generated from production during the trial period is credited to capital work in progress.

(iii) Investment Property:

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

- (a) Use in the production or supply of goods or services or for administrative purposes; or
- (b) Sale in the ordinary course of business.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

(iv) Depreciation:

Assets in the course of development or construction and freehold land are not depreciated. Other property, plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use. Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value.

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of assets based on internal assessment and independent technical evaluation done by the Management expert which are in accordance with Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

The Estimated useful lives of assets which are in accordance with Schedule II to the companies Act, 2013, are as follows:

Assets	Estimated Useful life (Years)
Buildings RCC Frame Structure	60 years
Buildings Other than RCC Frame Structure & Factory Buildings	30 years
Plant and Machinery	15 years
Furniture and fixtures	10 years
Vehicles	10 years
Electrical Equipment	10 years
Interiors	10 years
Solar Power-Equipment	10 years
Computers	3 years
Construction Equipments	3 years

Individual items of assets costing up to Rs. 5,000 are fully depreciated in the year of acquisition.

(E) Intangible Assets:

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The Company currently does not have any intangibles assets.

(F) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value are recognised immediately in the statement of profit and loss.

➤ **Financial Assets****(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value through profit or loss, and
- (b) Those measured at amortised cost.
- (c) those to be measured at fair value through other comprehensive income

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are recorded in profit or loss. For investments in equity instruments in subsidiaries, associates and jointly control entities these are carried at cost less diminution, if any, in these financial statements.

(ii) Measurement➤ **Initial recognition and measurement**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

➤ **Subsequent Measurement of Financial Assets in form of Debt Instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company has classified its debt instruments:

(a) Amortised Cost:

Assets that are held for collection of contractual cash flows and where the contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(b) Fair Value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

➤ **Subsequent Measurement of Financial Assets in form of Equity Instruments**

The Company subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly controlled entities, which are carried at cost less diminution, if any.

(iii) De recognition of financial asset

A financial asset is derecognised only when

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(iv) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

➤ **Financial liabilities**

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognised in OCI. These gains/ losses are not subsequently transferred to statement of profit & loss. However, the Company may transfer the cumulative gain or loss within equity.

All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Financial instrument is classified as a liability or equity components based on the terms of the contract and in accordance with Ind AS 32 (Financial instruments: Presentation). Financial instrument issued by the Company classified as equity is

carried at its transaction value and shown within "other equity". Financial instrument issued by the Company classified as liability is initially recognised at fair value (issue price). Subsequent to initial recognition, such financial instrument is fair valued through the statement of profit or loss. On modification of financial instrument from liability to equity, the financial instrument is recorded at the fair value of financial instrument classified as equity and the difference in fair value is recorded as a gain/ loss on modification in the statement of profit or loss.

Financial liabilities at amortised cost (loans and borrowings)

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(G) Income recognition

➤ Interest Income

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, pre- payment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

➤ Security Deposits

Under the previous GAAP, interest free security deposits received from lessees (that are refundable in cash on completion of its term) are recorded at their transaction value. Under Ind AS, the Company fair values these security deposits if their non-cancellable period is more than one year as at the reporting date. Difference between the fair value and transaction value of the security deposits shall be recognised as deferred revenue. The corresponding adjustments shall be recognised in the profit and loss account.

➤ Dividends

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

(H) Cash & Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of not more than twelve months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the company's cash management.

(I) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences (if any) to the extent regarded as an adjustment to the borrowing costs.

Specific Borrowings: To the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

General Borrowings: To the extent that an entity borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate shall be the weighted average of the borrowing costs applicable to the borrowings of the entity that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

The amount of borrowing costs that an entity capitalises during a period shall not exceed the amount of borrowing costs it incurred during that period.

(J) Investment in Subsidiaries, Associates and Joint venture:

Investment in subsidiaries, associates and joint venture are shown at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference transferred to the statement of profit and loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit or Loss

(K) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

The Company has disclosed in Note No. 33 forming part of the financial Statements, the contingent liabilities in respect of liabilities that are not ascertained or are under dispute and hence, no provisions have been made. The estimates thereof are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent Assets are not ascertained nor disclosed in the Financial Statements.

(L) Leases (as a lessee)**➤ Operating Leases**

Leases in which the Lessor does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an expense on a straight-line basis over the lease term unless either:

- (a) another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis; or
- (b) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met

Hence the Company has recognised the lease expenses on the basis of payments to the lessor are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight-line basis is avoided.

(M) Inventories:

Inventories comprise of Land held as stock in trade which is valued at the lower of cost and net realisable value.

The Land held by the Company was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the Sub Registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve (as disclosed in other equity) was created.

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the Company. The re conversion is made at the same rate at which the stock in trade was valued hitherto.

The balance of the said land which is held as stock in trade for development and sale continues to be valued at the rate at which it was converted into stock in trade during the year 2005-06 being treated as cost thereto and the same is lower than market rate.

(N) Employee benefits schemes:

The adherence to the requirements of Employee benefit schemes as per Ind As-19 "Employee Benefits" is found not to be applicable to the Company being in view of limited number of staff. While its implementation is being pursued, short term employee benefits are recognised in the period in which such employee services are received.

(O) Foreign currency transactions:

Transactions in foreign currencies are initially recorded by the Company at the respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Under Indian GAAP, AS 11 the "Effects of changes in Foreign Exchange Rates" gives two options with regard to accounting for exchange differences arising on long-term foreign currency monetary items. The first option is that an entity recognizes exchange differences as income or expense in profit or loss in the period in which they arise. However, paragraph 46A of AS 11 also provides companies an option whereby companies can choose to defer/ capitalize exchange differences arising on long-term foreign currency monetary items. The option once selected is irrevocable and needs to be applied to all long-term foreign currency monetary items. A long-term foreign currency monetary item is an item having a term of 12 months or more at the date of its origination.

If under Indian GAAP, a company had opted to defer/ capitalize exchange differences arising on long-term foreign currency monetary items in accordance with paragraph 46A of AS 11, then Ind AS 101 gives an option whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. It should be noted that this is an option. In other words, a first-time adopter is free to use Ind AS 21 accounting even for exchange differences arising on translation of long-term foreign currency monetary items for the period ending immediately before the beginning of the first Ind AS financial reporting period. However, the deferral/ amortization policy is not allowed for any new long-term foreign currency monetary item recognized from the first Ind AS financial reporting period.

The Company has not applied paragraph 46A of AS 11 under Indian GAAP. Consequently, it does not have the option of using deferral/ capitalization policy under Ind AS.

(P) Earnings per share:

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(Q) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment.

Inter segment revenue are accounted for based on the cost price. Revenue, expenses, assets and liabilities which are not allocable to segments on a reasonable basis, are included under "Unallocated revenue/ expenses/ assets/ liabilities"

(R) Cash Flow Statements:

Cash flows are reported using Indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(S) Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

43.Risk Management Framework:

The Company's businesses are subject to several risks and uncertainties including financial risks. The Company's documented risk management policies act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management. Risks are identified through a formal risk management programme with active involvement of senior management personnel and business managers. The Company has in place risk management processes in line with the Company's policy. Each significant risk has a designated 'owner' within the Company at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Company's Audit Committee.

The Audit Committee and the Risk Management Committee meets regularly to review risks as well as the progress against the planned actions, Key business decisions are discussed at the periodic meetings.

The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims:

- (a) improve financial risk awareness and risk transparency
- (b) identify, control and monitor key risks
- (c) identify risk accumulations
- (d) provide management with reliable information on the Company's risk situation
- (e) improve financial returns

➤ **Financial Risk**

The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and credit risk. The Company does not engage in speculative treasury activity but seeks to manage risk and optimize interest and commodity pricing through proven financial instruments.

➤ **Liquidity Risk**

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The

The Company remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet.

➤ **Foreign Exchange Risk:**

Fluctuations in foreign currency exchange rates may have an impact on the statements of profit and loss, the statement of change in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Exposures on foreign currency loans are managed through the Company's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Company uses Futures & Options contracts to hedge the effects of movements in exchange rates on foreign currency denominated assets and liabilities. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating

currency exchange rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the statements of profit and loss and statements of other comprehensive income.

➤ **Interest Rate Risk:**

The Company is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Company's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Company are principally denominated in Indian Rupees.

➤ **Credit Risk:**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

Trade & other receivables:

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, credit risk with regards to trade receivable is almost negligible in case of its lease rental business, Solar Power & Sale of Land Business. The same is due to the fact that in case of -

- a. **Sale of Land**-The Company does not handover possession till entire outstanding is received.
- b. **Rental Income Operating leases**- The Company keeps 3 to 6 months rental as deposit from the Tenants.
- c. **Sale of Solar Power**- Telangana State Electricity Board (Telangana State Southern Power Discom Limited) being State Government Entity Credit Exposure is minimal.

No impairment is observed on the carrying value of trade receivable.

Cash and cash equivalents

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invest in deposits with banks with high credit ratings assigned by external credit rating agencies, accordingly the Company considers that the related credit risk is low. Impairment on these items are measured on the 12-month expected credit loss basis.

➤ **Derivative Financial Instruments:**

The Company uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Company does not enter into complex derivative transactions to manage the treasury and commodity risks.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value, generally based on quotations obtained from financial institutions or brokers. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation. The fair values of all derivatives are separately recorded in the balance sheet within current and noncurrent assets and liabilities.

Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative. The Company uses derivative instruments as part of its management of exposures to fluctuations in foreign currency exchange rates and commodity prices. The use of derivatives can give rise to credit and market risk. The Company tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions.

Note no 44: Reserve on account of Revaluation of Land:

The Land held by the Company was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve was created (Refer Note 9 & Note 17).

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the company. The re conversion is made at the same rate at which the stock in trade is valued hitherto. Accordingly, the portion of revaluation reserve amounting to ₹ 1,99,58,586 was transferred to Capital Reserves (Refer Note No. 17 and Note No. 3)

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications relating to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

One of the clarifications made by ITFG was relating to treatment of existing Revaluation Reserve created prior to transition to IND AS, which states that as per paragraph 11 of Ind AS 101, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, based on the above clarification, the existing balance outstanding in the revaluation reserve has been transferred to and disclosed under the head "Other Components of Equity" disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. Subsequently to transition to IND AS, the Company is no longer applying the revaluation model of Ind AS 16, instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Starlite Global Enterprises (India) Limited**

Report on the Consolidated Indian Accounting Standards (Ind-AS) Financial Statements**Opinion**

We have audited the accompanying Consolidated Ind AS financial statements of **Starlite Global Enterprises (India) Limited** (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss including other comprehensive income, the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the Consolidated state of affairs of the Group as at March 31, 2023, their Consolidated profit including other comprehensive income, their Consolidated cash flows and Consolidated statement of changes in equity for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated IND AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S.NO	Key Audit Matter	How our audit addressed the key audit matter
-	Nil	Nil

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Holding Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Managements and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash

flows and Consolidated statement of changes in equity of the Group in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial Ind AS statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - A to the Auditors' Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")****Opinion**

In conjunction with our audit of the Consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2023, we have audited the internal financial controls over financial reporting of **Starlite Global Enterprises (India) Limited** ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered accountants of India.(the "Guidance Note")

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements of the Holding Company, in so far as it relates to its one subsidiary company, which is incorporated in India, is based on the corresponding report of the auditor of such Subsidiary Company.

The consolidated financial statements comprise financial statements of Starlite Global Enterprises (India) Limited (referred to as "SGEIL" or "the company" hereinafter) and its subsidiaries (collectively, referred to as "Group" here in after) for the year ended 31st March, 2023. The company was incorporated in the year 1962, in the name of M/s Telangana Spinning & Weaving Mills Limited which has been changed to M/s Starlite Global Enterprises (India) Limited with effect from 17-05-2010. The company has its registered office Situated at 603, Shangrila Plaza, Plot No.14, Road no.2, Banjara Hills, Hyderabad -500034.

The Group is engaged in diversified business activity namely, Real Estate activities of development and sale of land and commercial property, generation and supply of solar power, & Management and Maintenance of properties, owned by the company and those under Joint venture Agreements. Further the Group is also trading in shares, securities and derivatives and mutual fund investments as a supplement to its main activities and is also engaged in International and Retail trade of Raw Cotton, Textiles & Garments through its subsidiaries.

The consolidated financial statements were authorized for issue in accordance with a resolution of the directors on 29th May, 2023.

2. BASIS OF PREPARATION & SIGNIFICANT ACCOUNTING POLICIES

b) Basis of preparation

i. Compliance with Ind AS

These consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

ii. Basis of Measurement

The Consolidated Financial Statements have been prepared on a historical cost basis, except for certain financial assets and Liabilities (including derivative instruments) which are measure at fair value/ amortised cost;

iii. Functional and presentation currency

These Ind AS Financial Statements are prepared in Indian Rupee which is the Group's functional currency. All Financial information are presented in Indian Rupee Lakhs and rounded off to the nearest lakhs.

iv. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

v. Significant accounting judgement, estimates and assumptions:

The preparation of Group's financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgments, estimates and assumptions that affect the reported balances of revenue, expenses, assets and liabilities, accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The following are the critical judgements, apart from those involving estimations that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

➤ Taxes

Deferred tax assets are recognised for unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future

taxable profits together with future tax planning strategies. Refer note 19 – Recognition of deferred tax assets, availability of future taxable profit against which tax losses carried forward can be used.

➤ Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted cash flow model ("DCF model"). The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash- inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill with indefinite useful lives recognised by the Group.

c) Basis of Consolidation

The consolidated financial statements comprise the consolidated financial statements of the Group and its subsidiaries as at 31 March 2023. The subsidiaries along with M/s. Starlite Global Enterprises (India) Limited, (the parent) constituting the group for preparation of these Consolidated Financial Statements are:

Sl. No	Name of Subsidiary	Country of Incorporation	Holding as on		Financial Year ending
			March 31, 2023	March 31, 2022	
1	Starlite Fashions Pvt. Ltd	India	100%	98.18%	31-03-2023
2	Starlite Global Enterprises – FZE	UAE	100%	100%	31-03-2023
3	Texyarn Starlite, Tanger, Morocco Free Zone (Step Down Subsidiary)	Morocco	100%	100%	31-03-2023
4	Starlite Global Enterprises Maroc (Step Down Subsidiary)	Morocco	100%	100%	31-03-2023

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

1. Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
2. Exposure, or rights, to variable returns from its involvement with the investee, and
3. The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangement with the other vote holders of the investee

1. Rights arising from other contractual arrangements
2. The Group's voting rights and potential voting rights
3. The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that

group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e., year ended on 31 March 2023. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

d) Consolidation procedure:

- (a) The financial statements of the Group and its subsidiary companies have been consolidated based on the respective Audited Balance Sheets on line-by-line basis by adding together the book value of like items of assets, liabilities, income and expenses. The Balance Sheets of step-down subsidiaries are not audited and the unaudited and provisional balance sheets of the same are considered for consolidation.
- (b) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- (c) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (d) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- (e) The financial statements of the overseas subsidiary are converted into Indian currency at the prevailing exchange rate as of 31st March, 2023. However, in respect of the profit and loss account items, the conversion is based on the average of the exchange rates prevailing on the opening and closing days of the financial year. In respect of General Reserves and retained earnings of FZE different rates as applicable as of that year are applied for conversion. Similar procedure is adopted in respect of certain Balance sheet items of step-down subsidiaries. The resultant difference is considered under foreign currency translation reserves.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

1. Derecognises the assets (including goodwill) and liabilities of the subsidiary
2. Derecognises the carrying amount of any non-controlling interests
3. Derecognises the cumulative translation differences recorded in equity
4. Recognises the fair value of the consideration received
5. Recognises the fair value of any investment retained
6. Recognises any surplus or deficit in profit or loss
7. Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

e) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Current and non-current classification:

The Group presents assets and liabilities in the balance sheet based on current / noncurrent classification.

- An Asset is classified as current when it satisfies any of the following criteria:
 - (e) It is expected to be realised in, or is intended for sale or consumption, in the Group's normal operating cycle. It is held primarily for the purpose of being traded.
 - (f) It is expected to be realised within 12 months after reporting date; or
 - (g) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.
- A liability is classified as current when it satisfies any of the following criteria:
 - (a) It is expected to be settled in the Group's normal operating cycle.
 - (b) It is held primarily for the purpose of being traded.
 - (c) It is due to be settled within 12 months after the reporting date; or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of Equity instrument do not affect its classification.
- All other liabilities are classified as Non-current.
- Deferred tax assets and liabilities are classified as non-current only.

Operating cycle

Based on the nature of services of the Group the normal time between commencement of services and their realisation in cash and cash equivalents, the Group has identified twelve months as its operating cycle for the purpose of classification of its Assets and Liabilities as current and non-current.

(B) Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, sales tax/ value added tax (VAT) / Goods and Service Tax (GST) is not received by the group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Rental Income from tenants under Operating leases:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of Ownership to the lessee. All other leases are classified as operating leases

As a lessor:

Leases in which the Group does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an income on a straight-line basis over the lease term unless

- (iii) Another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis;
- (iv) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

Hence the Group has recognised the lease income on the basis of payments to the lessor that are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight line basis is avoided.

(d) Sale of Solar Power:

Revenue from sale of solar energy is recognised in accordance with the provisions of the power purchase agreement entered into with TSSPDCL (The Southern Power Distribution Group of Telangana). Such revenue is recognised on the basis of actual units generated and transmitted, at the tariff rate agreed between the parties.

(e) Sale of Land held as stock in trade:

Sale of land and plots (including development rights) held as stock in trade is recognized in the financial year in which the agreement to sell/application forms (containing salient terms of agreement to sell) is executed and there exists no uncertainty in the ultimate collection of consideration from buyers.

(f) Sale of raw cotton:

Sale of raw cotton is recognised when the significant risk and rewards of ownership have transferred to the buyer, the entity loses effective control and ownership over the goods, it is probable that the economic benefit will flow to the Group and the amount can be measured reliably. Commission income is recognised when the deal is executed as per the terms of contract & Invoice for same is raised or amount received whichever is earlier.

(g) Sale of Textiles & Garments:

Sale of Textiles & Garments is recognised when the significant risk and rewards of ownership have transferred to the buyer, the entity loses effective control and ownership over the goods, it is probable that the economic benefit will flow to the Group and the amount can be measured reliably.

(C) Taxes:**(i) Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Tax:

Deferred income taxes are recognised using the Balance Sheet Approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred Income Tax Liabilities are recognised for all taxable temporary differences, except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred Income Tax Assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

(c) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

(d) In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax assets include Unused Tax Credit in the form of Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(D) Property Plant & Equipment & Investment Property:

(i) Property Plant & Equipment:

PPE is measured on initial recognition at cost net of taxes/ duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Machinery spares that meet the definition of PPE are capitalised and depreciated over the useful life of the principal item of asset. When significant parts of plant and equipment are required to be replaced at intervals, the group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) Capital Work in Progress:

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment or investment property. Costs associated with the Commissioning of an asset are capitalised when the asset is available for use but incapable of operating at normal levels until the period of commissioning has been completed. Revenue generated from production during the trial period is credited to capital work in progress.

(iii) Investment Property:

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

- (c) use in the production or supply of goods or services or for administrative purposes; or
- (d) Sale in the ordinary course of business.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

(iv) Depreciation:

Assets in the course of development or construction and freehold land are not depreciated. Other property, plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use. Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value.

Depreciation is provided on a pro-rata basis on the straight line method over the estimated useful lives of assets based on internal assessment and independent technical evaluation done by the Management expert which are in accordance with Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

The Estimated useful lives of assets which are in accordance with Schedule II to the companies Act, 2013, are as follows:

Assets	Estimated Useful life (Years)
Buildings RCC Frame Structure	60 years
Buildings Other than RCC Frame Structure & Factory Buildings	30 years
Plant and Machinery	15 years
Furniture and fixtures	10 years
Vehicles	10 years
Electrical equipment	10 years
Interiors	10 years
Solar Power-Equipment	10 years
Computers	3 years
Construction equipment	3 years

Individual items of assets costing up to Rs. 5,000 are fully depreciated in the year of acquisition.

(E) Intangible Assets:

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The Group currently does not have any intangibles assets.

(F) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value are recognised immediately in the statement of profit and loss.

➤ **Financial Assets****(i) Classification**

The Group classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value through profit or loss, and
- (b) Those measured at amortised cost.
- (c) those to be measured at fair value through other comprehensive income

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are recorded in profit or loss. For investments in equity instruments in subsidiaries, associates and jointly control entities these are carried at cost less diminution, if any, in these financial statements.

(ii) Measurement

➤ Initial recognition and measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

➤ Subsequent Measurement of Financial Assets in form of Debt Instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group has classified its debt instruments:

(a) Amortised Cost:

Assets that are held for collection of contractual cash flows and where the contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(b) Fair Value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

➤ Subsequent Measurement of Financial Assets in form of Equity Instruments

The Group subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly controlled entities, which are carried at cost less diminution, if any.

(iii) Derecognition of financial instruments

A financial asset is derecognised only when

- (a) The Group has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(iv) Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance.

- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

➤ **Financial liabilities**

i. **Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

ii. **Subsequent measurement**

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognised in OCI. These gains/ losses are not subsequently transferred to statement of profit & loss. However, the Group may transfer the cumulative gain or loss within equity.

All other changes in fair value of such liability are recognised in the statement of profit and loss. The Group has not designated any financial liability as at fair value through profit or loss.

Financial instruments are classified as a liability or equity components based on the terms of the contract and in accordance with Ind AS 32 (Financial instruments: Presentation). Financial instrument issued by the Group classified as equity is carried at its transaction value and shown within "other equity". Financial instrument issued by the Group classified as liability is initially recognised at fair value (issue price). Subsequent to initial recognition, such financial instrument is fair valued through the statement of profit or loss. On modification of financial instrument from liability to equity, the financial instrument is recorded at the fair value of financial instrument classified as equity and the difference in fair value is recorded as a gain/ loss on modification in the statement of profit or loss.

Financial liabilities at amortised cost (loans and borrowings)

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

iii. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

iv. Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(G) Income recognition**➤ Interest Income**

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, pre-payment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

➤ Security Deposits

Under the previous GAAP, interest free security deposits received from lessees (that are refundable in cash on completion of its term) are recorded at their transaction value. Under Ind AS, the Group fair values these security deposits if their non-cancellable period is more than one year as at the reporting date. Difference between the fair value and transaction value of the security deposits shall be recognised as deferred revenue. The corresponding adjustments shall be recognised in the profit and loss account.

➤ Dividends

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

(H) Cash & Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of not more than twelve months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group's cash management.

(I) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences (if any) to the extent regarded as an adjustment to the borrowing costs.

Specific Borrowings: To the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

General Borrowings: To the extent that an entity borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate shall be the weighted average of the borrowing costs applicable to the borrowings of the entity that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

The amount of borrowing costs that an entity capitalizes during a period shall not exceed the amount of borrowing costs it incurred during that period.

(J) Investment in subsidiaries, associates and joint venture:

Investment in subsidiaries, associates and joint venture are shown at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference transferred to the statement of profit and loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit or Loss.

(K) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

The Group has disclosed in a note no 33 forming part of the consolidated financial Statements, the contingent liabilities in respect of liabilities that are not ascertained or are under dispute and hence, no provisions have been made. The estimates thereof reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent Assets are not ascertained nor disclosed in the Consolidated Financial Statements.

(L) Leases (as a lessee)**Operating Leases:**

Leases in which the Lessor does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an expense on a straight-line basis over the lease term unless either:

- (c) another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis; or
- (d) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met

Hence the Group has recognised the lease expenses on the basis of payments to the lessor are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight-line basis is avoided.

(M) Inventories:

Inventories comprise of Land held as stock in trade which is valued at the lower of cost and net realisable value.

The Land held by the Group was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve (as disclosed in other equity) was created.

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the Group. The re conversion is made at the same rate at which the stock in trade is valued hitherto.

The balance of the said land which is held as stock in trade for development and sale continues to be valued at the rate at which it was converted into stock in trade during the year 2005-06 being treated as cost thereto and the same is lower than market rate.

(N) Employee benefits schemes:

The adherence to the requirements of Employee benefit schemes as per Ind As-19 "Employee Benefits" is found not to be applicable to the Group being in view of limited number of staff. While its implementation is being pursued, short term employee benefits are recognised in the period in which such employee services are received.

(O) Foreign currency transactions:

Transactions in foreign currencies are initially recorded by the Group at the respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Under Indian GAAP, AS 11 the "Effects of changes in Foreign Exchange Rates" gives two options with regard to accounting for exchange differences arising on long-term foreign currency monetary items. The first option is that an entity recognizes exchange differences as income or expense in profit or loss in the period in which they arise.

However, paragraph 46A of AS 11 also provides companies an option whereby companies can choose to defer/ capitalize exchange differences arising on long-term foreign currency monetary items. The option once selected is irrevocable and needs to be applied to all long-term foreign currency monetary items. A long-term foreign currency monetary item is an item having a term of 12 months or more at the date of its origination.

If under Indian GAAP, a Group had opted to defer/ capitalize exchange differences arising on long-term foreign currency monetary items in accordance with paragraph 46A of AS 11, then Ind AS 101 gives an option whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP Consolidated financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. It should be noted that this is an option. In other words, a first-time adopter is free to use Ind AS 21 accounting even for exchange differences arising on translation of long-term foreign currency monetary items for the period ending immediately before the beginning of the first Ind AS financial reporting period. However, the deferral/ amortization policy is not allowed for any new long-term foreign currency monetary item recognized from the first Ind AS financial reporting period.

The Group has not applied paragraph 46A of AS 11 under Indian GAAP. Consequently, it does not have the option of using deferral/ capitalization policy under Ind AS.

(P) Foreign Currency translation reserve

The foreign currency translation reserve represents the differences arising from translation of investments in overseas subsidiaries.

(Q) Earnings per share:

The Group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the year. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(R) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue are accounted for based on the cost price. Revenue, expenses, assets and liabilities which are not allocable to segments on a reasonable basis, are included under "Unallocated revenue/ expenses/ assets/ liabilities".

(S) Cash Flow Statements:

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

(T) Use of Estimates and Judgements:

The preparation of the Consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these Consolidated financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

42. Risk Management Framework:

The Group's businesses are subject to several risks and uncertainties including financial risks. The Group's documented risk management polices act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management. Risks are identified through a formal risk management programme with active involvement of senior management personnel and business managers. The Group has in place risk management processes in line with the Group's policy. Each significant risk has a designated 'owner' within the Group at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Group's Audit Committee.

The Audit Committee and the Risk Management Committee meets regularly to review risks as well as the progress against the planned actions. Key business decisions are discussed at the periodic meetings.

The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims:

- improve financial risk awareness and risk transparency
- identify, control and monitor key risks

- (c) identify risk accumulations
- (d) provide management with reliable information on the Group's risk situation
- (e) improve financial returns

➤ **Financial Risk**

The Group's Board approved financial risk policies comprise liquidity, currency, interest rate and credit risk. The Group does not engage in speculative treasury activity but seeks to manage risk and optimize interest and commodity pricing through proven financial instruments.

➤ **Liquidity Risk**

The Group requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Group generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The

The Group remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet.

➤ **Foreign Exchange Risk:**

Fluctuations in foreign currency exchange rates may have an impact on the statements of profit and loss, the statement of change in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Exposures on foreign currency loans are managed through the Group's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Group strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Group uses Futures & Options contracts to hedge the effects of movements in exchange rates on foreign currency denominated assets and liabilities. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the statements of profit and loss and statements of other comprehensive income.

➤ **Interest Rate Risk:**

The Group is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Group's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Group are principally denominated in Indian Rupees.

➤ **Credit Risk:**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

Trade & other receivables:

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, credit risk with regards to trade receivable is almost negligible in case of its lease rental business, Solar Power & Sale of Land Business. The same is due to the fact that in case of

- a. **Sale of Land-**The Company does not handover ownership till entire outstanding is received.
- b. **Rental Income Operating leases-** The Company keeps 3 to 6 months rental as deposit from the Tenants.
- c. **Sale of Solar Power-** Telangana State Electricity Board (Telangana State Southern Power Discom Limited) being State Government Entity Credit Exposure is minimal.
- d. **Sale of Raw Cotton-** Sale of Raw Cotton is generally secured by LC obtained from bank before export is made.

No impairment is observed on the carrying value of trade receivables.

Cash and cash equivalents

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Group generally invest in deposits with banks with high credit ratings assigned by external credit rating agencies, accordingly the Group considers that the related credit risk is low. Impairment on these items is measured on the 12-month expected credit loss basis.

➤ **Derivative Financial Instruments:**

The Group uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Group does not enter into complex derivative transactions to manage the treasury and commodity risks.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value, generally based on quotations obtained from financial institutions or brokers. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation. The fair values of all derivatives are separately recorded in the balance sheet within current and noncurrent assets and liabilities.

Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative. The Group uses derivative instruments as part of its management of exposures to fluctuations in foreign currency exchange rates and commodity prices. The use of derivatives can give rise to credit and market risk. The Group tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions.

43. Reserve on account of Revaluation of Land:

The Land held by the Group was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve was created (Refer Note 9 & Note 17).

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the Group. The re conversion is made at the same rate at which the stock in trade is valued hitherto. Accordingly, the portion of revaluation reserve amounting to ₹ 1,99,58,586 was transferred to Capital Reserves (Refer Note 17 and Note 3).

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications relating to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

One of the clarifications made by ITFG was relating to treatment of existing Revaluation Reserve created prior to transition to IND AS, which states that as per paragraph 11 of Ind AS 101, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, based on the above clarification, the existing balance outstanding in the revaluation reserve has been transferred to and disclosed under the head "Other Components of Equity" disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. Subsequently to transition to IND AS, the Group is no longer applying the revaluation model of Ind AS 16, instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

Note no 44: The previous year GAAP figures have been regrouped / reclassified where ever necessary to confirm to Ind As presentation requirements.

33. The Voting rights of the members shall be in proportion to the paid-up value of their shares in the Equity Capital of the Company as on cut-off date (i.e., for e-voting) **September 22, 2023**.

INSTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING ARE AS UNDER:

The voting period begins on **Tuesday, September 26, 2023 from 9:00 A.M** and ends on **Thursday, September 28, 2023 at 5:00 P.M.** During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (for e-voting) of **September 22, 2023** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

I. THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

Step 1: Access through Depositories CDSL/NSDL e-voting system in case of individual shareholders holding shares in Demat mode.

Step2: Access through CDSL e-voting System in case of shareholders holding shares in physical mode and non-individual shareholders in Demat mode.

- i) Remote e-voting period shall commence on **Tuesday, September 26, 2023 (9:00 A.M. IST) and end on Thursday, September 28, 2023 (5:00 P.M. IST)**. During this period, Members of the Company holding shares either in physical or dematerialized form as on the Cut-off date for **e-voting i.e. Friday September 22, 2023** (including those Members who may not have received this Notice due to non-registration of their e-mail address with the Company or the Depositories/ Depository Participants), may cast their vote electronically in respect of the resolutions as set out in this Notice only through remote e-voting. The remote e-voting module shall be disabled by CDSL for voting thereafter.
- ii) During the remote e-voting period, Members can login at CDSL e-voting platform any number of times till they have voted on the resolution(s). Once the vote on resolution is cast by a Member, whether partially or otherwise, Member shall not be allowed to change it subsequently or cast the vote again.
- iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the Demat account holders, by way of a single login credential, through their Demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-voting system in case of individual shareholders holding shares in Demat mode.

- iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Individual demat account holders would be able to cast their vote without having to register again with the e-voting service provider (ESP) thereby not only facilitating seamless authentication but also ease and convenience of participating in e-voting process. The members are advised to update their mobile number and e-mail ID with their DPs to access e-Voting facility
