Explanatory Statement Pursuant to Section 102(1) of the Companies Act, 2013**ITEM NO 4:**

Your company has entered into transactions with the entities, as mentioned in the Resolution, which are falling under the definition of "related party" as defined under Section 2(76) of the Companies Act, 2013 and Regulation 2(1)(zb) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"). Pursuant to provisions of Section 188(1) of the Companies Act, 2013 read with the Companies (Meeting of Board and its Powers) Rules, 2014, the Related Party Transactions as mentioned in clause (a) to (g) of the said Section requires a Company to obtain prior approval of the Board of Directors and subsequently the Shareholders of the Company by way of Ordinary Resolution in case the value of the Related Party Transactions exceeds the stipulated thresholds prescribed in Rule 15(3) of the said Rules. Further, as required under Regulation 23 of SEBI Listing Regulations, all material related party transactions shall require approval of the shareholders through Resolution. The Company, in ordinary course of its business, regularly does the transactions with the related parties including those mentioned in the Notice on an arm's length basis. On basis of the same, the Company hereby proposes to seek shareholders' approval for the said transactions by way of an Ordinary Resolution under Section 188 of the Companies Act, 2013 read with the Companies (Meeting of Board and its Powers) Rules, 2014 and Regulation 23 of SEBI Listing Regulations, to enable the Company to enter into Related Party Transactions in one or more tranches. The particulars of the Related Party Transactions, which are required to be stated in the Explanatory Statement, as per Rule 15(3) of the Companies (Meetings of Board and its Powers) Rules, 2014 are mentioned in the said resolution item no. 4 of the Notice.

Further, as per Regulation 23(5) OF SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015), the transaction between Holding Company and its wholly-owned Subsidiary Company whose accounts are consolidated are exempted for the approval of member. Therefore, any Related Party Transaction between the Company and Starlite Fashions Private Limited and Starlite Global Enterprises FZE are exempted for approval of member.

During the Financial year 2020-2021, the Equity Shares of your Company got listed with Metropolitan Stock Exchange of India on July 21, 2020, accordingly the regulations of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 has been applicable from the date of listing. Your Company has entered into Related Party Transactions with Related Parties as defined under section 2(76) of the Companies Act, 2013 and applicable Accounting Standards, as detailed below during FY 2019-20, which are of value exceeding 10% of the Annual Consolidated Turnover of the Company as per the Last Audited Financial Statement of the Company and therefore approval of the Members is sought to ratify below mentioned related party transaction made by the Company during FY 2019-20.

Regulation 23 (7) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 provides that all entities falling under the definition of related parties shall not vote to approve any related party transaction, irrespective of whether the entity is a party to the transaction or not. Therefore, none of the Promoter Group entities holding share(s) will vote on the above Resolution.

The Board considers that the proposed arrangements with the related parties, are in the ordinary course of business. Except all promoter Directors who holds directorship in some of the related parties, none of the Directors and Key Managerial Personnel or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

The Board recommends the Special Resolution as set out in Item No.4 of this Notice for approval of the Members.

ANNEXURE-IV**FORM NO MR - 3****Secretarial Audit Report****for the financial year ended 31st March, 2020**

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

Starlite Global Enterprises (India) Limited

Suite No.603, Shangrila Plaza,

Plot No.14, Road No.2,

Banjara Hills, Hyderabad-500034.

We have conducted the Secretarial Audit for compliance of applicable statutory provisions and the adherence to good corporate practices by **Starlite Global Enterprises (India) Limited, CIN: L17110TG1962PLC000915** (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of the Secretarial Audit and considering the various relaxations granted by the Securities and Exchange Board of India, the Ministry of Corporate Affairs and other government authorities due to COVID-19 pandemic, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2020, complied with the statutory provisions listed hereunder, as amended from time to time and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2020, to the extent, applicable, according to the provisions of:

- I. The Companies Act, 2013 (**'the Act'**) and the Companies (Amendment) Act, 2017 (to the extent notified and applicable) and the rules made there under;

Green Initiative for Paperless Communications:

The Ministry of Corporate Affairs ("MCA") has taken a "Green Initiative in Corporate Governance" by allowing paperless compliances by Companies through electronic mode. In accordance with the recent circular bearing no.17/2011 and 18/2011 dated April 21, 2011 and April 29, 2011 issued by the Ministry of Corporate Affairs, Companies can now send various notices/documents to their shareholders through electronic mode to the registered e-mail addresses of the shareholders. This is a golden opportunity for every shareholder of the Company to contribute to the Corporate Social Responsibility initiative of the Company.

This move by the Ministry is a welcome move, since it will benefit the society at large through reduction in paper consumption and contribution towards a greener environment. Additionally, it will avoid loss in postal transit, save time, energy and costs. Pursuant to the said circular, the company has forwarded e-mail communication to all shareholders whose email id were registered in the Depository records that the company intends to use the said e-mail id to send various Notices/ Correspondences etc .

By Understanding the underlying theme of the above circulars, to support this green initiative of the Government in full measure, the company is sending the documents like notice convening general meetings, financial statements, directors reports, auditor's report etc to the email address registered with the depositories by the shareholders holding shares in electronic form and for shareholders holding shares in physical form, the physical copy to the address registered with the Registrar and Share transfer Agents of the Company.

In this regard, we request shareholders who have not registered their email addresses, so far to register their email addresses, in respect of electronic holding with depository through their concerned depository participants and Members who hold shares in physical form are requested to send the required details to the Registrar and Share Transfer Agent.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

INDUSTRY STRUCTURE, DEVELOPMENT AND OUTLOOK

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country.

Your Directors are glad to report that there has been significant development in all divisions of the Company's operations during the year under report inspite of being substantially affected by COVID -19 pandemic.

REAL ESTATE

Introduction

The Real Estate sector is one of the most globally recognized sectors. Real Estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations.

This financial year buyers gained more confidence in buying properties with the implementation of RERA either be it in the residential sector or the commercial sector. The improved transparency and accountability have been a boon to both the buyers and the builders. In the era of RERA, the real estate sector saw a growth in sales and absorption of offices and retail outlets.

However, concerns remain with delays in implementation of certain projects by some developers due to prolonged downturn in the business and paucity of funds resulting in interventions of courts in many cases and a strong pitch for the government to lend a helping hand in the present environment of COVID -19 pandemic and resultant slowdown.

COMMERCIAL PROJECTS

Your Company's commercial real estate business includes developing and constructing high rise office blocks and IT/ITES parks. Commercial space offerings are a mix of "built to suit" offices, customized facilities, and pure multi-tenanted facilities.

1. Proposed Commercial Complex At Balanagar

Your Company has made a steady progress in the construction of a commercial complex on part of its own land at Balanagar, Hyderabad. In view of the location in a prime and upcoming area in the city of Hyderabad, your Directors have expanded the project to a full fledged shopping mall with 5 screens, food court, games area and offices covering a built up area of about 5.00 lakh Sft. at an estimated cost of ₹90 crores. The required permissions have been received and the construction has been started during previous years. Presently, the progress is bit tardy due to COVID- 19 effects and monsoon rains. Your Directors estimate that the project will be completed within a period of next 2 years. The project when completed, would add substantially to the revenues of your Company on a sustained basis.

2. Proposed Commercial Complex At Kondapur

As stated in our last Annual Report, the Company has still to receive the required statutory building permissions and hence, it is proposed that soon after getting the Building permissions, the excavation work will be started.

The project cost is estimated to remain the same as stated earlier. Due to present delays, the completion of the complex is expected by end 2022.

OTHER PROJECTS

- Presently your Company has been developing open plots for sale for housing sector both at Balanagar and at sadashivpet at its own land. Your Directors are glad to report that your Company has been dealing on its own land at Balanagar held as Stock-in-Trade and has derived a revenue of ₹. 414.14 lakhs during the year as compared to ₹. 120.32 lakhs in the previous year from sale of open land plots. Besides, an one-time income of ₹.495.30 lakhs has been realized during the year in respect of a sale of land made in an earlier year.
- Industrial Park at Sadashivpet: Due to present drive of the Indian Government to attract foreign manufacturing companies to shift to India, the Company proposes to develop an Industrial Park in about 80 Acres of its land at Sadashivpet and offer complete services to the incoming industries necessary for smooth and hassle free start of their operations.
- Through its 100% subsidiary at UAE, your Company has invested in a residential house development being developed by DAMAC Properties Co LLS, Dubai (UAE) one of the prominent developers in UAE.

- At the same time, your Company has also invested via its Moroccan step-down subsidiary in an open plot at Tanger free zone, Tanger, Morocco for development of an industrial building with about 46,311 square ft. Successful completion of this project will open many viable opportunities in the Morocco market and will generate substantial income for the Company.

Road Ahead

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform which will help in allowing all kinds of investors to invest in the Indian Real Estate market. It would create an opportunity in trillions over the years. Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalisation, Indian Real Estate developers have shifted gears and accepted fresh challenges. Real Estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material, organise manpower and hiring qualified professionals in areas like project management, architecture and engineering. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards.

OTHER SEGMENTS

- **Solar Power Generation:**

Your Directors are glad to report that your Company has maintained the annual export of solar power to the grid at Rs.321.40 lakhs during the year as compared to Rs.332.59 lakhs in the previous year. These figures are well within the norms of the Industry.

The actual dues have been at Rs. 301.79 lakhs as on 31st March 2020 and are being maintained at the same level even during the current year affecting the cashflow statement.

- **International Trade:**

M/s Starlite Global Enterprises FZE, Sharjah, UAE (your Company's wholly owned subsidiary incorporated in UAE) engaged in international trading of raw cotton and yarns has reported improved operations during the year. The profit of the subsidiary company is ₹. 110.072 Lakhs (AED 5.36 Lakhs) as against ₹. 91.18 Lakhs (AED 4.73 Lakhs) in the previous year. With established contacts of your Company's subsidiary with suppliers and buyers in China, Morocco, Bangladesh and India, the operations are expected to remain sustained in the current year.

- **Retail Trade:**

Your Company's Subsidiary M/s Starlite Fashion Private Limited has achieved retail sale of Garments of Rs 43.53 lakh during the year under report as compared to Rs 42.89 lakhs in the previous year. This company has also undertaken maintenance of apartments, mobilization of unsecured loans and sale of open land plots and the combined activities resulted in a profit of Rs 38.41 lakhs during the year under report as compared to a loss of Rs. 1.84 in the previous year.

- **Rental income:**

The rental income from its own property and the rental share for the property managed under joint venture agreements at Shangrila Plaza Commercial complex has slightly improved to ₹.525.43 Lakhs during the year as against ₹.493.81 Lakhs in the previous year. During the year under report, your Company has invested ₹ 331.72 Lakhs in interiors and furnitures at the property. These investments are expected to steadily increase the rental revenues of your Company during the ensuing years.

Key Risks

While the management is very optimistic about the Company's growth outlook, it is subject to certain risks and uncertainties. A spade of policy reforms by the statutory bodies has made the Indian infrastructure space more attractive for the new players to enter and therefore possible rise in competition in the sector.

Your Company has around a decade of experience in the industry and has positioned itself in niche space following a conservative approach. Infrastructure being a capital intensive sector requires high level of long term financing either by own capital or by debt. Increasing interest cost during the span of a project can challenge the profit margins.

The Company has, therefore, always ensured adequate owned capital for its operations and has maintained the financial costs under strict control so that profit margins are not adversely affected. Infrastructure projects involve complex design and engineering, substantial procurement of machinery and equipment, extensive construction management and sophisticated activities executed over an extended period of time. As such. Availability of input materials, arrangement of man power and volatility in their cost could be other risks the Company is exposed to. The Company maintains a healthy and long term relationship with its suppliers and work force to ensure seamless execution of its projects. It also maintains strong execution efficiencies by effectively mobilizing its machineries and other resources.

Cautionary Statement

Statements in the Management Discussion and Analysis describing your Company's objectives, projections, estimates, expectations may be "forward-looking statements". Actual results may differ materially from those expressed or implied. Important factors that could make difference to the Companies approach regarding operations include economic conditions in which Atlanta Limited operates, change in government regulations, tax laws, statutes and other factors such as litigations and industrial relations.

INDEPENDENT AUDITOR'S REPORT

To the Members of Starlite Global Enterprises (India) Limited

Report on the Standalone Indian Accounting Standards (Ind-AS) Financial Statements**Opinion**

We have audited the accompanying Standalone Ind AS financial statements of Starlite Global Enterprises (India) Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the Standalone financial Statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Key audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.NO	Key Audit Matter	How our audit addressed the key audit matter
-	Nil	Nil

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Emphasis of Matter

We draw your attention to Note No. 46 to the Financial Statements which explains the uncertainties and the Management's assessment of the financial impact due to Lock-downs and other restrictions and conditions related to COVID-19 pandemic situation, for which a definitive assessment of impact in the subsequent period is highly dependent upon circumstances as they evolve.

Management's Responsibility for the Standalone Ind-AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF STARLITE GLOBAL ENTERPRISES (INDIA) LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Starlite Global Enterprises (India) Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that

the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Further the Company is also engaged in International and Retail trade through its subsidiaries.

2. Significant Accounting Policies

I. Basis of preparation

(i) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

(ii) Historical Cost Convention

The Financial Statements have been prepared on a historical cost basis, except for certain Financial assets and Liabilities (including derivative instruments) which are measured at fair value/ amortised cost;

(iii) These Ind AS Financial Statements are prepared in Indian Rupee which is the Company's functional currency. All Financial information are presented in rupees and rounded off to the nearest rupee.

(iv) Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(v) Current and non-current classification:

The Company presents assets and liabilities in the balance sheet based on current / noncurrent classification.

➤ An Asset is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be realized in, or is intended for sale or consumption, in the Company's normal operating cycle. It is held primarily for the purpose of being traded.
- (b) It is expected to be realized within 12 months after reporting date; or
- (c) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle liability for at least 12 months after the reporting date.

➤ All other assets are classified as non-current.

➤ A liability is classified as current when it satisfies any of the following criteria:

- (a) It is expected to be settled in the Company's normal operating cycle.
- (b) It is held primarily for the purpose of being traded.
- (c) It is due to be settled within 12 months after the reporting date; or the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of Equity instrument do not affect its classification.

➤ All other liabilities are classified as non-current.

➤ Deferred tax assets and liabilities are classified as non-current only.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, Goods and Service Tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue. The specific recognition criteria described below must also be met before revenue is recognised.

(a) Rental Income from tenants under Operating leases:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of Ownership to the lessee. All other leases are classified as operating leases.

As a lessor:

Leases in which the Company does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

- Lease payments under an operating lease shall be recognised as an income on a straight-line basis over the lease term unless
 - (i) Another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis;
 - (ii) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

Hence the Company has recognised the lease income on the basis of payments to the lessor that are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight line basis is avoided.

(b) Sale of Solar Power:

Revenue from sale of solar energy is recognised in accordance with the provisions of the power purchase agreement entered into with TSSPDCL (The Southern Power Distribution Company of Telangana). Such revenue is recognised on the basis of actual units generated and transmitted, at the tariff rate agreed between the parties.

(c) Sale of Land held as stock in trade:

Sale of land and plots (including development rights) held as stock in trade is recognized in the financial year in which the agreement to sell/application forms (containing salient terms of agreement to sell) is executed and there exists no uncertainty in the ultimate collection of consideration from buyers.

(B) Taxes:

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Income Taxes:

Deferred income taxes are recognised using the Balance Sheet Approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred Income Tax Liabilities are recognised for all taxable temporary differences, except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred Income Tax Assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- (a) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- (b) In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority. Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(C) Property Plant & Equipment & Investment Property:**(i) Property Plant & Equipment:**

PPE is measured on initial recognition at cost net of taxes/ duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Machinery spares that meet the definition of PPE are capitalised and depreciated over the useful life of the principal item of asset.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) Capital Work in Progress:

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment or investment property. Costs associated with the commissioning of an asset are capitalised when the asset is available for use but incapable of operating at normal levels until the period of commissioning has been completed. Revenue generated from production during the trial period is credited to capital work in progress.

During the Financial Year 2019-20, the company estimates either to lease the property or make it available for sale once the asset is completed. Hence the company has reversed proportionally the Input taken on GST amounting to Rs. 122.57 Lakhs and the same has been taken to Capital Work in Progress.

(iii) Investment Property:

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

- (a) Use in the production or supply of goods or services or for administrative purposes; or
- (b) Sale in the ordinary course of business.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

(iv) Depreciation:

Assets in the course of development or construction and freehold land are not depreciated. Other property, plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use. Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value.

Depreciation is provided on a pro-rata basis on the straight line method over the estimated useful lives of assets based on internal assessment and independent technical evaluation done by the Management expert which are in accordance with Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

The Estimated useful lives of assets which are in accordance with Schedule II to the companies Act, 2013, are as follows:

Assets	Estimated Useful life
Buildings RCC Frame Structure	60 years
Buildings Other than RCC Frame Structure & Factory Buildings	30 years
Plant and Machinery	15 years
Furniture and fixtures	10 years
Vehicles	10 years
Electrical Equipment	10 years
Interiors	10 years
Solar Power-Equipment	10 years
Computers	3 years

Individual items of assets costing up to Rs. 5,000 are fully depreciated in the year of acquisition.

(D) Intangible Assets:

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The Company currently does not have any intangibles assets.

(E) Financial Instruments:**➤ Financial Assets****(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value through profit or loss, and
- (b) Those measured at amortised cost.
- (c) those to be measured at fair value through other comprehensive income

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are recorded in profit or loss. For investments in equity instruments in subsidiaries, associates and jointly control entities these are carried at cost less diminution, if any, in these financial statements.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

➤ Subsequent Measurement of Financial Assets in form of Debt Instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company has classified its debt instruments:

(a) Amortised Cost:

Assets that are held for collection of contractual cash flows and where the contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(b) Fair Value through profit or loss (FTVPL):

Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

➤ Subsequent Measurement of Financial Assets in form of Equity Instruments

The Company subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly controlled entities, which are carried at cost less diminution, if any.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 in respect to Financial Instruments, which require expected lifetime losses to be recognized from initial recognition of the receivables.

(iv) De recognition of financial instruments

A financial asset is derecognised only when

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability (or a part of financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires

➤ Financial liabilities

Financial liabilities are classified, at the initial recognition, as loans and borrowings, payables, as appropriate. The Company's financial liabilities include trade and other payables, loans and borrowings. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short term maturity of these instruments.

(F) Income recognition**➤ Interest Income**

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, pre- payment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

➤ Security Deposits

Under the previous GAAP, interest free security deposits received from lessees (that are refundable in cash on completion of its term) are recorded at their transaction value. Under Ind AS, the Company fair values these security deposits if their non-cancellable period is more than one year as at the reporting date. Difference between the fair value and transaction value of the security deposits shall be recognised as deferred revenue. The corresponding adjustments shall be recognised in the profit and loss account.

➤ Dividends

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

(G) Cash & Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of not more than twelve months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts(if any) as they are considered an integral part of the company's cash management.

(H) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences (if any) to the extent regarded as an adjustment to the borrowing costs.

(I) Investment in Subsidiaries, Associates and Joint venture:

Investment in subsidiaries, associates and joint venture are shown at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference transferred to the statement of profit and loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit or Loss

(J) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

The Company has disclosed in Note No. 33 forming part of the financial Statements, the contingent liabilities in respect of liabilities that are not ascertained or are under dispute and hence, no provisions have been made. The estimates thereof are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent Assets are not ascertained nor disclosed in the Financial Statements.

(K) Leases (as a lessee)**➤ Operating Leases**

Leases in which the Lessor does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an expense on a straight-line basis over the lease term unless either:

- (a) another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis; or
- (b) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met

Hence the Company has recognised the lease expenses on the basis of payments to the lessor are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight line basis is avoided.

(L) Inventories:

Inventories comprise of Land held as stock in trade which is valued at the lower of cost and net realisable value.

The Land held by the Company was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the Sub Registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve (as disclosed in other equity) was created.

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the Company. The re conversion is made at the same rate at which the stock in trade was valued hitherto.

The balance of the said land which is held as stock in trade for development and sale continues to be valued at the rate at which it was converted into stock in trade during the year 2005-06 being treated as cost thereto and the same is lower than market rate.

Also refer Note no 44 for deemed cost of the land considered as per IND AS 101 First Time Adoption of Indian Accounting Standards.

(M) Employee benefits schemes:

The adherence to the requirements of Employee benefit schemes as per Ind As-19 "Employee Benefits" is found not to be applicable to the Company being in view of limited number of staff. While its implementation is being pursued, short term employee benefits are recognised in the period in which such employee services are received.

(N) Foreign currency transactions:

Transactions in foreign currencies are initially recorded by the Company at the respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Under Indian GAAP, AS 11 the "Effects of changes in Foreign Exchange Rates" gives two options with regard to accounting for exchange differences arising on long-term foreign currency monetary items. The first option is that an entity recognizes exchange differences as income or expense in profit or loss in the period in which they arise. However, paragraph 46A of AS 11 also provides companies an option whereby companies can choose to defer/ capitalize exchange differences arising on long-term foreign currency monetary items. The option once selected is irrevocable and needs to be applied to all long-term foreign currency monetary items. A long-term foreign currency monetary item is an item having a term of 12 months or more at the date of its origination.

If under Indian GAAP, a company had opted to defer/ capitalize exchange differences arising on long-term foreign currency monetary items in accordance with paragraph 46A of AS 11, then Ind AS 101 gives an option whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. It should be noted that this is an option. In other words, a first-time adopter is free to use Ind AS 21 accounting even for exchange differences arising on translation of long-term foreign currency monetary items for the period ending immediately before the beginning of the first Ind AS financial reporting period. However, the deferral/ amortization policy is not allowed for any new long-term foreign currency monetary item recognized from the first Ind AS financial reporting period.

The Company has not applied paragraph 46A of AS 11 under Indian GAAP. Consequently, it does not have the option of using deferral/ capitalization policy under Ind AS.

(O) Earnings per share:

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(P) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment.

Inter segment revenue are accounted for based on the cost price. Revenue, expenses, assets and liabilities which are not allocable to segments on a reasonable basis, are included under "Unallocated revenue/ expenses/ assets/ liabilities"

(Q) Cash Flow Statements:

Cash flows are reported using Indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future

cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(R) Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

NOTE NO. 43: Risk Management Framework:

The Company's businesses are subject to several risks and uncertainties including financial risks. The Company's documented risk management policies act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management. Risks are identified through a formal risk management programme with active involvement of senior management personnel and business managers. The Company has in place risk management processes in line with the Company's policy. Each significant risk has a designated 'owner' within the Company at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Company's Audit Committee.

The Audit Committee and the Risk Management Committee meets regularly to review risks as well as the progress against the planned actions, Key business decisions are discussed at the periodic meetings.

The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims:

- (a) improve financial risk awareness and risk transparency
- (b) identify, control and monitor key risks
- (c) identify risk accumulations
- (d) provide management with reliable information on the Company's risk situation
- (e) improve financial returns

➤ **Financial Risk**

The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and credit risk. The Company does not engage in speculative treasury activity but seeks to manage risk and optimize interest and commodity pricing through proven financial instruments.

➤ **Liquidity Risk**

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The

The Company remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet.

➤ **Foreign Exchange Risk:**

Fluctuations in foreign currency exchange rates may have an impact on the statements of profit and loss, the statement of change in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Exposures on foreign currency loans are managed through the Company's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Company uses Futures & Options contracts to hedge the effects of movements in exchange rates on foreign currency denominated assets and liabilities. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the statements of profit and loss and statements of other comprehensive income.

➤ **Interest Rate Risk:**

The Company is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Company's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Company are principally denominated in Indian Rupees.

➤ **Credit Risk:**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

Trade & other receivables:

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due. This definition of default is determined by considering the business environment in which Company operates and other macro-economic factors.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company, market intelligence & goodwill. Outstanding customer receivables are regularly monitored.

The Company has a policy for an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables and 12-month expected credit loss for other receivables. An impairment analysis is performed at each reporting date on an individual basis for major parties. In addition, a large number of minor receivables are combined into homogenous categories and assessed for impairment collectively.

Cash and cash equivalents

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invest in deposits with banks with high credit ratings assigned by external credit rating agencies, accordingly the Company considers that the related credit risk is low. Impairment on these items are measured on the 12-month expected credit loss basis.

➤ **Derivative Financial Instruments:**

The Company uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Company does not enter into complex derivative transactions to manage the treasury and commodity risks.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value, generally based on quotations obtained from financial institutions or brokers. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation. The fair values of all derivatives are separately recorded in the balance sheet within current and noncurrent assets and liabilities.

Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative. The Company uses derivative instruments as part of its management of exposures to fluctuations in foreign currency exchange rates and commodity prices. The use of derivatives can give rise to credit and market risk. The Company tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions.

NOTE NO. 44: First Time Adoption of Ind AS:

During the previous year 2017-18 the Company had for the first time prepared its financial statements in accordance with Ind AS. The accounting policies set out in Note No. 2 have been applied in preparing the financial statements for the year ended 31 March 2020, the comparative information presented in these financial statements as at and for the year ended 31 March 2019.

In preparing its opening Ind AS Balance Sheet i.e as at April 01, 2016 the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('previous GAAP' or 'Indian GAAP'). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities (if any).

This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.

Accordingly the company has elected to opt for Cost model for all the Property Plant & Equipment and investment Property subsequent

The Company has also Classified Property Plant & Equipment and Investment Property based on the definitions given under Ind AS-16 Property Plant & Equipment and Ind AS- 40 Investment Property.

(a) Investment In Subsidiaries& Wholly Owned Subsidiaries:

IND AS 101 provides the option to the first-time adopter to account for its investments in subsidiaries, jointly controlled entities and associates at either cost determined in accordance with IND AS 27 or in accordance with IND AS 109. The Company has elected to measure such investments at cost in accordance with Ind AS 27.

(b) Classification and measurement of financial assets:

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

(c) Security Deposits:

The Company does not have security deposits with non-cancellable period of more than one year as at the reporting date that needs to be recognised and carried at fair values.

(d) Accounting Treatment of existing Revaluation reserve accounted as per previous GAAP:

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications on timely basis on various issues related to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

Ind AS Transition Facilitation Group (ITFG) considered some issues received from members and decided to issue following clarifications on May 5, 2017:

One of the clarifications made by ITFG was existing Revaluation reserve which provides for:

Paragraph 10 of Ind AS 101, First-time Adoption of Indian Accounting Standards provides as follows:

“Except as described in paragraphs 13–19 and Appendices B–D, an entity shall, in its opening Ind AS Balance Sheet:

- (a) Recognise all assets and liabilities whose recognition is required by Ind AS;
- (b) Not recognise items as assets or liabilities if Ind AS does not permit such recognition;
- (c) reclassify items that it recognised in accordance with previous GAAP as one type of asset, liability or component of equity, but are a different type of asset, liability or component of equity in accordance with Ind AS; and
- (d) Apply Ind AS in measuring all recognised assets and liabilities.

Further paragraph 11 of Ind AS 101 provides that, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, as per the above requirements in the given case balance outstanding in the revaluation reserve should be transferred to retained earnings or if appropriate, another category of equity disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. This is because after transition, the Company is no longer applying the revaluation model of Ind AS 16; instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

Further, it may also be noted that in accordance with Ind AS 12, Income Taxes, deferred tax would need to be recognised on any difference between the carrying amount and tax base of assets and liabilities. No deferred tax is created on equity components. However, since the asset has been revalued, there will be difference for the amount between carrying value and tax base. Hence, deferred tax will have to be recognised on such asset.

(e) Clarifications issued by CBDT on MAT Provisions applicable to Ind AS reporters:

- (1) As per the Finance Bill - 2017, the starting point for computation of MAT liability is profit before other comprehensive income reported in Ind AS compliant financial statements. This profit shall be first adjusted for items which are specified in the existing provisions of section 115JB of the Act and thereafter adjustments shall be made for specific Ind-AS related items provided above in the proposed amendments.
- (2) The proposed amendments state that book profit for MAT purposes (discussed in FAQ 1 above) shall be increased / decreased by all amounts credited/debited to OCI that will not be re-classified to profit or loss, except certain specified exclusions. There is no adjustment proposed for items of OCI that will be re-classified to profit or loss. Accordingly, OCI items that will be reclassified to profit or loss shall be included in the book profit for MAT purposes in the year of such reclassification.
- (3) The changes in fair value of such equity instruments will be included in book profit of the financial year in which the investment is disposed, realised or otherwise transferred.

NOTE NO. 45: Reserve on account of Revaluation of Land:

The Land held by the Company was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve was created (Refer Note No. 17).

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the company. The re conversion is made at the same rate at which the

stock in trade is valued hitherto. Accordingly the portion of revaluation reserve amounting to Rs. 1,99,58,586 was transferred to Capital Reserves (Refer Note No. 17 and Note No. 3)

Also refer Note no 44 for deemed cost of the land considered as per IND AS 101 First Time Adoption of Indian Accounting Standards.

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications relating to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

One of the clarifications made by ITFG was relating to treatment of existing Revaluation Reserve created prior to transition to IND AS, which states that as per paragraph 11 of Ind AS 101, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, based on the above clarification, the existing balance outstanding in the revaluation reserve has been transferred to and disclosed under the head "Other Components of Equity" disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. Subsequently to transition to IND AS, the Company is no longer applying the revaluation model of Ind AS 16, instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

NOTE NO. 46: Note on COVID-19

The outbreak of novel Coronavirus (COVID-19) pandemic has effected globally. The Company is in the business of Real Estate, Rental and generation of power. The Company has taken proactive measures to comply with various regulations/guidelines issued by the Government. The Company has considered possible effects of COVID-19 on the recoverability of its investments, property, plant and equipment (PPE), loans and receivables, etc in accordance with Ind AS.

During the previous year ended March 2020, the World Health Organization declared COVID-19 to be a pandemic. Consequent to this, Government of India declared a national lock down on March 24, 2020, which has impacted the business activities of the Company. The Company has assessed the impact of this pandemic on its business operations and has considered all relevant internal and external information available up to the date of approval of these financial statements, in determination of the recoverability and carrying value of the assets. The impact of COVID-19 pandemic on the overall economic environment being uncertain may affect the underlying assumptions and estimates which may differ from that considered as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes to future economic conditions.

Note no 47: The previous year GAAP figures have been regrouped / reclassified where ever necessary to confirm to Ind AS presentation requirements.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Starlite Global Enterprises (India) Limited**

Report on the Consolidated Indian Accounting Standards (Ind-AS) Financial Statements**Opinion**

We have audited the accompanying Consolidated Ind AS financial statements of **Starlite Global Enterprises (India) Limited** (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at March 31, 2020, the Consolidated Statement of Profit and Loss including other comprehensive income, the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the Consolidated state of affairs of the Group as at March 31, 2020, their Consolidated profit including other comprehensive income, their Consolidated cash flows and Consolidated statement of changes in equity for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated IND AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S.NO	Key Audit Matter	How our audit addressed the key audit matter
-	Nil	Nil

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Emphasis of Matter

We draw your attention to Note No. 44 to the Financial Statements which explains the uncertainties and the Management's assessment of the financial Impact due to Lock-downs and other restrictions and conditions related to COVID-19 pandemic situation, for which a definitive assessment of impact in the subsequent period is highly dependent upon circumstances as they evolve.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated cash flows and Consolidated statement of changes in equity of the Group in accordance with accounting principles generally

accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial Ind AS statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the Consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in

evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Annexure - A to the Auditors' Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the Consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of **Starlite Global Enterprises (India) Limited** ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

The company has its registered office Situated at 603, Shangrila Plaza, Plot No.14, Road no.2, Banjara Hills, Hyderabad -500034.

The Group is engaged in diversified business activity namely, Real Estate activities of development and sale of land and commercial property , generation and supply of solar power, & Management and Maintenance of properties, owned by the company and those under Joint venture Agreements. Further the Group is also trading in shares, securities and derivatives and mutual fund investments as a supplement to its main activities and is also engaged in International and Retail trade of Raw Cotton, Textiles & Garments through its subsidiaries.

The consolidated financial statements were authorized for issue in accordance with a resolution of the directors on 25th August, 2020.

2. SIGNIFICANT ACCOUNTING POLICIES**b) Basis of preparation****(i) Compliance with Ind AS**

These consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

(ii) Historical Cost Convention

The Consolidated Financial Statements have been prepared on a historical cost basis, except for certain Financial assets and Liabilities (including derivative instruments) which are measure at fair value/ amortised cost;

(iii) These Ind AS Financial Statements are prepared in Indian Rupee which is the Group's functional currency. All Financial information are presented in rupees and rounded off to the nearest rupees.

(iv) Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(v) Current and non-current classification:

The Group presents assets and liabilities in the balance sheet based on current / noncurrent classification.

➤ An Asset is classified as current when it satisfies any of the following criteria:

(d) It is expected to be realised in, or is intended for sale or consumption, in the Group's normal operating cycle. It is held primarily for the purpose of being traded

(e) It is expected to be realised within 12 months after reporting date; or

(f) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

➤ All other assets are classified as non-current.

➤ A liability is classified as current when it satisfies any of the following criteria:

(a) It is expected to be settled in the Group's normal operating cycle.

(b) It is held primarily for the purpose of being traded.

(c) It is due to be settled within 12 months after the reporting date; or the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of Equity instrument do not affect its classification.

- All other liabilities are classified as Non –current.
- Deferred tax assets and liabilities are classified as Non-current only.

c) Basis of Consolidation

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

1. Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
2. Exposure, or rights, to variable returns from its involvement with the investee, and
3. The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangement with the other vote holders of the investee

1. Rights arising from other contractual arrangements
2. The Group's voting rights and potential voting rights
3. The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e., year ended on 31 March 2020. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

d) Consolidation procedure:

- (a) The financial statements of the Group and its subsidiary companies have been consolidated based on the respective Audited Balance Sheets on line by line basis by adding together the book value of like items of assets, liabilities, income and expenses. The Balance Sheets of step down subsidiaries are not audited and the unaudited and provisional balance sheets of the same are considered for consolidation.
- (b) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- (c) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (d) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- (e) Non-Controlling Interest in one of the subsidiary companies consists of the amount of equity & share of Reserves and Surplus attributable to the Non-Controlling Interest holders at dates on which investment is made by the Group in the subsidiary Group and further movement if its shares, if any.
- (f) The financial statements of the overseas subsidiary are converted into Indian currency at the prevailing exchange rate as of 31st March, 2020. However, in respect of the profit and loss account items, the conversion is based on the average of the exchange rates prevailing on the opening and closing days of the financial year. In respect of General Reserves and retained earnings of FZE different rates as applicable as of that year are applied for conversion. Similar procedure is adopted in respect of certain Balance sheet items of step down subsidiaries. The resultant difference is considered under foreign currency translation reserves.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

1. Derecognizes the assets (including goodwill) and liabilities of the subsidiary
2. Derecognizes the carrying amount of any non-controlling interests
3. Derecognizes the cumulative translation differences recorded in equity
4. Recognizes the fair value of the consideration received
5. Recognizes the fair value of any investment retained
6. Recognizes any surplus or deficit in profit or loss
7. Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

e) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, sales tax/ value added tax (VAT) / Goods and Service Tax (GST) is not received by the group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

(d) Rental Income from tenants under Operating leases:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of Ownership to the lessee. All other leases are classified as operating leases

As a lessor:

Leases in which the Group does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an income on a straight-line basis over the lease term unless

(iii) Another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis;

(iv) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met.

Hence the Group has recognised the lease income on the basis of payments to the lessor that are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight line basis is avoided.

(e) Sale of Solar Power:

Revenue from sale of solar energy is recognised in accordance with the provisions of the power purchase agreement entered into with TSSPDCL (The Southern Power Distribution Group of Telangana). Such revenue is recognised on the basis of actual units generated and transmitted, at the tariff rate agreed between the parties.

(f) Sale of Land held as stock in trade:

Sale of land and plots (including development rights) held as stock in trade is recognized in the financial year in which the agreement to sell/application forms (containing salient terms of agreement to sell) is executed and there exists no uncertainty in the ultimate collection of consideration from buyers.

(g) Sale of raw cotton:

Sale of raw cotton is recognised when the significant risk and rewards of ownership have transferred to the buyer, the entity loses effective control and ownership over the goods, it is probable that the economic benefit will flow to the company and the amount can be measured reliably. Commission income is recognised when the deal is executed as per the terms of contract & Invoice for same is raised or amount received whichever is earlier.

(h) Sale of Textiles & Garments:

Sale of Textiles & Garments is recognised when the significant risk and rewards of ownership have transferred to the buyer, the entity loses effective control and ownership over the goods, it is probable that the economic benefit will flow to the company and the amount can be measured reliably.

(B) Taxes:**(i) Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Tax:

Deferred income taxes are recognised using the Balance Sheet Approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred Income Tax Liabilities are recognised for all taxable temporary differences, except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred Income Tax Assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- (c) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- (d) In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority. Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, to the extent it would be available for set off against future current income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(C) Property Plant & Equipment & Investment Property:**(i) Property Plant & Equipment:**

PPE is measured on initial recognition at cost net of taxes/ duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Machinery spares that meet the definition of PPE are capitalized and depreciated over the useful life of the principal item of asset. When significant parts of plant and equipment are required to be replaced at intervals, the group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/other expenses in statement of profit and loss. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) Capital Work in Progress:

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment or investment property. Costs associated with the Commissioning of an asset are capitalised when the asset is available for use but incapable of operating at normal levels until the period of commissioning has been completed. Revenue generated from production during the trial period is credited to capital work in progress.

During the Financial Year 2019-20, the company estimates either to lease the property or make it available for sale once the asset is completed. Hence the company has reversed proportionally the Input taken on GST amounting to Rs. 122.57 Lakhs and the same has been taken to Capital Work in Progress.

(iii) Investment Property:

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

(c) use in the production or supply of goods or services or for administrative purposes; or

(d) Sale in the ordinary course of business.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

(iv) Depreciation:

Assets in the course of development or construction and freehold land are not depreciated. Other property, plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use. Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value.

Depreciation is provided on a pro-rata basis on the straight line method over the estimated useful lives of assets based on internal assessment and independent technical evaluation done by the Management expert which are in accordance with Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

The Estimated useful lives of assets which are in accordance with Schedule II to the companies Act, 2013, are as follows:

Assets	Estimated Useful life (Years)
Buildings RCC Frame Structure	60 years
Buildings Other than RCC Frame Structure & Factory Buildings	30 years
Plant and Machinery	15 years
Furniture and fixtures	10 years
Vehicles	10 years
Electrical Equipments	10 years
Interiors	10 years
Solar Power-Equipments	10 years
Computers	3 years

Individual items of assets costing up to Rs. 5,000 are fully depreciated in the year of acquisition.

(D) Intangible Assets:

Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The Group currently does not have any intangibles assets.

(E) Financial Instruments:

➤ **Financial Assets**

(v) Classification

The Company classifies its financial assets in the following measurement categories:

- (d) Those to be measured subsequently at fair value through profit or loss, and
- (e) Those measured at amortised cost.
- (f) those to be measured at fair value through other comprehensive income

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are recorded in profit or loss. For investments in equity instruments in subsidiaries, associates and jointly control entities these are carried at cost less diminution, if any, in these financial statements.

(vi) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

➤ **Subsequent Measurement of Financial Assets in form of Debt Instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company has classified its debt instruments:

(c) Amortised Cost:

Assets that are held for collection of contractual cash flows and where the contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(d) Fair Value through profit or loss (FTVPL):

Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

➤ **Subsequent Measurement of Financial Assets in form of Equity Instruments**

The Company subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly controlled entities, which are carried at cost less diminution, if any.

(vii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 in respect to Financial Instruments, which require expected lifetime losses to be recognized from initial recognition of the receivables.

(viii) De recognition of financial instruments

A financial asset is derecognised only when

- (c) The Company has transferred the rights to receive cash flows from the financial asset or
- (d) Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability (or a part of financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires

➤ **Financial liabilities**

Financial liabilities are classified, at the initial recognition, as loans and borrowings, payables, as appropriate. The Company's financial liabilities include trade and other payables, loans and borrowings. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short term maturity of these instruments.

(F) Income recognition➤ **Interest Income**

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, pre-payment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

➤ **Security Deposits**

Under the previous GAAP, interest free security deposits received from lessees (that are refundable in cash on completion of its term) are recorded at their transaction value. Under Ind AS, the Group fair values these security deposits if their non-cancellable period is more than one year as at the reporting date. Difference between the fair value and transaction value of the security deposits shall be recognised as deferred revenue. The corresponding adjustments shall be recognised in the profit and loss account.

➤ **Dividends**

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

(G) Cash & Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of not more than twelve months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts(if any) as they are considered an integral part of the Group's cash management.

(H) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences (if any) to the extent regarded as an adjustment to the borrowing costs.

(I) Investment in subsidiaries , associates and joint venture:

Investment in subsidiaries, associates and joint venture are shown at cost. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference transferred to the statement of profit and loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of Profit or Loss

(J) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

The Group has disclosed in a note no 32 forming part of the consolidated financial Statements, the contingent liabilities in respect of liabilities that are not ascertained or are under dispute and hence, no provisions have been made. The estimates thereof reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent Assets are not ascertained nor disclosed in the Consolidated Financial Statements.

(K) Leases (as a lessee)

Operating Leases:

Leases in which the Lessor does not transfer substantially all the risk and rewards of ownership of an asset are classified as operating leases.

Lease payments under an operating lease shall be recognised as an expense on a straight-line basis over the lease term unless either:

- (c) another systematic basis is more representative of the time pattern of the user's benefit even if the payments to the lessors are not on that basis; or

- (d) The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. If payments to the lessor vary because of factors other than general inflation, then this condition is not met

Hence the Group has recognized the lease expenses on the basis of payments to the lessor are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases. Hence straight line basis is avoided.

(L) Inventories:

Inventories comprise of Land held as stock in trade which is valued at the lower of cost and net realisable value.

The Land held by the Group was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve (as disclosed in other equity) was created.

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the Group. The re conversion is made at the same rate at which the stock in trade is valued hitherto.

The balance of the said land which is held as stock in trade for development and sale continues to be valued at the rate at which it was converted into stock in trade during the year 2005-06 being treated as cost thereto and the same is lower than market rate.

Also refer Note no 42 for deemed cost of the land considered as per IND AS 101 First Time Adoption of Indian Accounting Standards.

(M) Employee benefits schemes:

The adherence to the requirements of Employee benefit schemes as per Ind As-19 "Employee Benefits" is found not to be applicable to the Group being in view of limited number of staff. While its implementation is being pursued, short term employee benefits are recognised in the period in which such employee services are received.

(N) Foreign currency transactions:

Transactions in foreign currencies are initially recorded by the Group at the respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Under Indian GAAP, AS 11 the "Effects of changes in Foreign Exchange Rates" gives two options with regard to accounting for exchange differences arising on long-term foreign currency monetary items. The first option is that an entity recognizes exchange differences as income or expense in profit or loss in the period in which they arise.

However, paragraph 46A of AS 11 also provides companies an option whereby companies can choose to defer/ capitalize exchange differences arising on long-term foreign currency monetary items. The option once selected is irrevocable and needs to be applied to all long-term foreign currency monetary items. A long-term foreign currency monetary item is an item having a term of 12 months or more at the date of its origination.

If under Indian GAAP, a Group had opted to defer/ capitalize exchange differences arising on long-term foreign currency monetary items in accordance with paragraph 46A of AS 11, then Ind AS 101 gives an option whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP Consolidated financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. It should be noted that this is an option. In other words, a first-time adopter is free to use Ind AS 21 accounting even for exchange differences arising on translation of long-term foreign currency monetary items for the period ending immediately before the beginning of the first Ind AS financial reporting period. However, the deferral/ amortization policy is not allowed for any new long-term foreign currency monetary item recognized from the first Ind AS financial reporting period.

The Group has not applied paragraph 46A of AS 11 under Indian GAAP. Consequently, it does not have the option of using deferral/ capitalization policy under Ind AS.

(O) Foreign Currency translation reserve

The foreign currency translation reserve represents the differences arising from translation of investments in overseas subsidiaries.

(P) Earnings per share:

The Group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the year. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

(Q) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue are accounted for based on the cost price. Revenue, expenses, assets and liabilities which are not allocable to segments on a reasonable basis, are included under "Unallocated revenue/ expenses/ assets/ liabilities"

(R) Cash Flow Statements:

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

(S) Use of Estimates and Judgements:

The preparation of the Consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these Consolidated financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

NOTE NO. 41: Risk Management Framework:

The Company's businesses are subject to several risks and uncertainties including financial risks. The Company's documented risk management policies act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management. Risks are identified through a formal risk management programme with active involvement of senior management personnel and business managers. The Company has in place risk management processes in line with the Company's policy. Each significant risk has a designated 'owner' within the Company at an appropriate senior level. The potential financial impact of the risk and its likelihood of a negative outcome are regularly updated.

The risk management process is coordinated by the Management Assurance function and is regularly reviewed by the Company's Audit Committee.

The Audit Committee and the Risk Management Committee meets regularly to review risks as well as the progress against the planned actions, Key business decisions are discussed at the periodic meetings.

The overall internal control environment and risk management programme including financial risk management is reviewed by the Audit Committee on behalf of the Board.

The risk management framework aims:

- (f) improve financial risk awareness and risk transparency
- (g) identify, control and monitor key risks
- (h) identify risk accumulations
- (i) provide management with reliable information on the Company's risk situation
- (j) improve financial returns

➤ Financial Risk

The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and credit risk. The Company does not engage in speculative treasury activity but seeks to manage risk and optimize interest and commodity pricing through proven financial instruments.

➤ Liquidity Risk

The Company requires funds both for short-term operational needs as well as for long-term investment programmes mainly in growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents and short-term investments provide liquidity both in the short-term as well as in the long-term. The

The Company remains committed to maintaining a healthy liquidity, gearing ratio, deleveraging and strengthening our balance sheet.

➤ **Foreign Exchange Risk:**

Fluctuations in foreign currency exchange rates may have an impact on the statements of profit and loss, the statement of change in equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency.

Exposures on foreign currency loans are managed through the Company's hedging policy, which is reviewed periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged.

The Company uses Futures & Options contracts to hedge the effects of movements in exchange rates on foreign currency denominated assets and liabilities. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the statements of profit and loss and statements of other comprehensive income.

➤ **Interest Rate Risk:**

The Company is exposed to interest rate risk on short-term and long-term floating rate instruments and on the refinancing of fixed rate debt. The Company's policy is to maintain a balance of fixed and floating interest rate borrowings and the proportion of fixed and floating rate debt is determined by current market interest rates. The borrowings of the Company are principally denominated in Indian Rupees.

➤ **Credit Risk:**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

Trade & other receivables:

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due. This definition of default is determined by considering the business environment in which Company operates and other macro-economic factors.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company, market intelligence & goodwill. Outstanding customer receivables are regularly monitored.

The Company has a policy for an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables and 12-month expected credit loss for other receivables. An impairment analysis is performed at each reporting date on an individual basis for major parties. In addition, a large number of minor receivables are combined into homogenous categories and assessed for impairment collectively.

Cash and cash equivalents

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invest in deposits with banks with high credit ratings assigned by external credit rating agencies, accordingly the Company considers that the related credit risk is low. Impairment on these items are measured on the 12-month expected credit loss basis.

➤ **Derivative Financial Instruments:**

The Company uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates, interest rates and commodity prices. The Company does not enter into complex derivative transactions to manage the treasury and commodity risks.

All derivative financial instruments are recognized as assets or liabilities on the balance sheet and measured at fair value, generally based on quotations obtained from financial institutions or brokers. The accounting for changes in the fair value of a derivative instrument depends on the intended use of the derivative and the resulting designation. The fair values of all derivatives are separately recorded in the balance sheet within current and noncurrent assets and liabilities.

Derivatives that are designated as hedges are classified as current or non-current depending on the maturity of the derivative. The Company uses derivative instruments as part of its management of exposures to fluctuations in foreign currency exchange rates and commodity prices. The use of derivatives can give rise to credit and market risk. The Company tries to control credit risk as far as possible by only entering into contracts with reputable banks and financial institutions.

NOTE NO. 42: First Time Adoption of Ind AS:

During the previous year 2017-18 the Company had for the first time prepared its financial statements in accordance with Ind AS. The accounting policies set out in Note No 2 have been applied in preparing the financial statements for the year ended 31 March 2020, the comparative information presented in these financial statements as at and for the year ended 31 March 2019.

In preparing its opening Ind AS Balance Sheet i.e as at April 01, 2016 the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('previous GAAP' or 'Indian GAAP'). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities(if any).

This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.

Accordingly the company has elected to opt for Cost model for all the Property Plant & Equipment and investment Property subsequent

The Company has also Classified Property Plant & Equipment and Investment Property based on the definitions given under Ind AS-16 Property Plant & Equipment and Ind AS- 40 Investment Property.

(f) Investment In Subsidiaries& Wholly Owned Subsidiaries:

IND AS 101 provides the option to the first-time adopter to account for its investments in subsidiaries, jointly controlled entities and associates at either cost determined in accordance with IND AS 27 or in accordance with IND AS 109. The Company has elected to measure such investments at cost in accordance with Ind AS 27.

(g) Classification and measurement of financial assets:

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

(h) Security Deposits:

The Company does not have security deposits with non cancellable period of more than one year as at the reporting date that needs to be recognised and carried at fair values.

(i) Accounting Treatment of existing Revaluation reserve accounted as per previous GAAP:

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications on timely basis on various issues related to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

Ind AS Transition Facilitation Group (ITFG) considered some issues received from members and decided to issue following clarifications on May 5, 2017:

One of the clarifications made by ITFG was existing Revaluation reserve which provides for:

Paragraph 10 of Ind AS 101, First-time Adoption of Indian Accounting Standards provides as follows:

“Except as described in paragraphs 13–19 and Appendices B–D, an entity shall, in its opening Ind AS Balance Sheet:

- (a) Recognise all assets and liabilities whose recognition is required by Ind AS;
- (b) Not recognise items as assets or liabilities if Ind AS does not permit such recognition;
- (c) reclassify items that it recognised in accordance with previous GAAP as one type of asset, liability or component of equity, but are a different type of asset, liability or component of equity in accordance with Ind AS; and
- (d) Apply Ind AS in measuring all recognised assets and liabilities.

Further paragraph 11 of Ind AS 101 provides that, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, as per the above requirements in the given case balance outstanding in the revaluation reserve should be transferred to retained earnings or if appropriate, another category of equity disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. This is because after transition, the Company is no longer applying the revaluation model of Ind AS 16; instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

Further, it may also be noted that in accordance with Ind AS 12, Income Taxes, deferred tax would need to be recognised on any difference between the carrying amount and tax base of assets and liabilities. No deferred tax is created on equity components. However, since the asset has been revalued, there will be difference for the amount between carrying value and tax base. Hence, deferred tax will have to be recognised on such asset.

(j) Clarifications issued by CBDT on MAT Provisions applicable to Ind AS reporters:

- (4) As per the Finance Bill - 2017, the starting point for computation of MAT liability is profit before other comprehensive income reported in Ind AS compliant financial statements. This profit shall be first adjusted for items which are specified in the existing provisions of section 115JB of the Act and thereafter adjustments shall be made for specific Ind-AS related items provided above in the proposed amendments.
- (5) The proposed amendments state that book profit for MAT purposes (discussed in FAQ 1 above) shall be increased / decreased by all amounts credited/debited to OCI that will not be re-classified to profit or loss, except certain specified exclusions. There is no adjustment proposed for items of OCI that will be re-classified to profit or loss. Accordingly, OCI items that will be reclassified to profit or loss shall be included in the book profit for MAT purposes in the year of such reclassification.
- (6) The changes in fair value of such equity instruments will be included in book profit of the financial year in which the investment is disposed, realised or otherwise transferred.

NOTE NO. 43: Reserve on account of Revaluation of Land:

The Land held by the Company was converted to Stock in trade during the year 2005-06, for the purpose of development and sales based on the market rate as on that date as certified by the sub registrar. Prior to the conversion of land into stock in trade, it was re-valued and accordingly the revaluation reserve was created (Refer Note 16).

A part of land held as stock in trade was reconverted into fixed assets during the year 2016-17 due to the same being used towards construction of a commercial complex by the company. The re conversion is made at the same rate at which the stock in trade is valued hitherto. Accordingly the portion of revaluation reserve amounting to Rs. 1,99,58,586 was transferred to Capital Reserves (Refer Note 16 and Note 3).

Also refer Note no 42 for deemed cost of the land considered as per IND AS 101 First Time Adoption of Indian Accounting Standards.

Ind AS Transition Facilitation Group' (ITFG) of Ind AS (IFRS) Implementation Committee has been constituted for providing clarifications relating to the applicability and /or implementation of Ind AS under the Companies (Indian Accounting Standards) Rules, 2015, raised by preparers, users and other stakeholders.

One of the clarifications made by ITFG was relating to treatment of existing Revaluation Reserve created prior to transition to IND AS, which states that as per paragraph 11 of Ind AS 101, the accounting policies that an entity uses in its opening Ind AS Balance Sheet may differ from those that it used for the same date using its previous GAAP. The resulting adjustments arise from events and transactions before the date of transition to Ind AS. Therefore, an entity shall recognise those adjustments directly in retained earnings (or, if appropriate, another category of equity) at the date of transition to Ind AS.

Accordingly, based on the above clarification, the existing balance outstanding in the revaluation reserve has been transferred to and disclosed under the head "Other Components of Equity" disclosing the description of the nature and purpose of such amount in accordance with the requirements of paragraph 79(b), Ind AS 1, Presentation of Financial Statements. Subsequently to transition to IND AS, the Company is no longer applying the revaluation model of Ind AS 16, instead it has elected to apply the cost model approach.

It may be noted that the requirements of Companies Act, 2013 for declaration of dividend will be required to be evaluated separately.

NOTE NO. 44: Note on COVID-19

The outbreak of novel Coronavirus (COVID-19) pandemic has effected globally. The Company is in the business of Real Estate, Rental and generation of power. The Company has taken proactive measures to comply with various regulations/guidelines issued by the Government. The Company has considered possible effects of COVID-19 on the recoverability of its investments, property, plant and equipment (PPE), loans and receivables, etc in accordance with Ind AS.

During the previous year ended March 2020, the World Health Organization declared COVID-19 to be a pandemic. Consequent to this, Government of India declared a national lock down on March 24, 2020, which has impacted the business activities of the Company. The Company has assessed the impact of this pandemic on its business operations and has considered all relevant internal and external information available up to the date of approval of these financial statements, in determination of the recoverability and carrying value of the assets. The impact of COVID-19 pandemic on the overall economic environment being uncertain may affect the underlying assumptions and estimates which may differ from that considered as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes to future economic conditions.

NOTE NO. 45: The previous year GAAP figures have been regrouped / reclassified where ever necessary to confirm to Ind As presentation requirements.
